4/4/26	Our New Heavenly Bodies	1983
<p>Our new resurrected bodies in heaven won't simply be resuscitated bodies but transformed glorified bodies. The Resurrected Christ gives us a vivid picture of what our resurrected bodies will be like. Author Randy Alcorn says we will have a physical, flesh and bone body that is a real, tangible body. We really will be ourselves and recognize others. We will celebrate with delicious food in energized luminescent bodies that are vibrant and powerful. We will be able to travel with just a thought. David Jeremiah, author of <i>The Promise of Heaven</i>, says, "The more we think of heaven, the less fearful we will be now on earth."</p>		
3/28/26	The Agony of Gethsemane	1982
<p>From the beginning of time people feared and dreaded death, but the resurrection of Christ changed that by showing death wasn't the end but the beginning. Our nation's schools are robbing this generation of this life changing, historical fact, by censoring out the greatest event in all human history – the resurrection. Patriot Pastor Garrett Lear tells of Christ's suffering in Gethsemane where he sweat drops of blood, the beatings, the tortuous death on the cross and the separation from God the Father. But Jesus wasn't a victim caught in a trap but a wonderful victor filled with resurrection power.</p>		
3/21/26	The Religion of Evolution	1981
<p>Is Intelligent Design religious? Is evolution scientific, or is it a religious belief based on faith? Are millions of scientists who believe in evolution wrong? Evolution has been enshrined in our educational system with laws to protect it. Scientists in the 1800's believed that life could <i>spontaneously</i> come from <i>non-life</i>. What <i>Darwin</i> believed, <i>Pasteur disproved</i>. Dr Carl Werner, author of <i>Evolution-the Grand Experiment</i>, believed in evolution until a friend asked him questions that changed his worldview. Why would birds evolve half a wing or animals that evolve half a leg evolve into intermediates that are incapable of life?</p>		
3/14/26	Debate on God's Existence	1980
<p>Are there contradictions in Scripture? Do scientific discoveries disprove the Bible? What about those who have never heard the gospel? Frank Turek, author of <i>I Don't Have Enough Faith to be an Atheist</i>, debates college students on the validity of the gospel, says the number one reason many students reject the gospel is not a belief in evolution but simply they want sexual freedom. God wins people's trust by becoming a man, Jesus, who demonstrated the love of God. There is a difference between believing God exists and trusting Jesus as your Savior. People don't go to hell because they reject Christ, but due to their unforgiven sins.</p>		
3/7/26	The Question of Suffering	1979
<p>Since God is good and all-powerful, why does He allow terrible things to happen to godly people? How do you handle unanswered prayers? Why did Jesus have to suffer and die on the cross? Dr James Dobson, author of <i>When God Doesn't Make Sense</i>, tells how a pastor led his church on a 24-hour prayer vigil to save his daughter's cancerous leg, but it was amputated anyway. In anger how could he continue to believe in prayer? He could continue in despair or let God be God and not try to understand. God doesn't need to explain Himself to man! HE is the unfathomable God of the universe Who defies human logic.</p>		
2/28/26	Countering The Skeptic	1978
<p>What would you say to a skeptic who asks, "What makes your religion any different?" What do you say to the skeptic who says science has disproved the Bible? Over 30% of young people identify as "unaffiliated." Bill Foster, author of <i>Meet the Skeptic</i>, says before you give an answer <i>ask a question</i>, "<u>How</u> has science disproved the Bible?" "What are the <u>contradictions</u> in the Bible?" Words like, "in Christ," or "inspired by God," have different meanings for skeptics. Never qualify a Biblical verse with "for me," which renders the scripture subjective. Why can't a person get to heaven by being good? What's the evidence for belief in God?</p>		
2/21/26	False Gender Identity	1977
<p>The Democrat Left won't give up on gender confusion for children wanting men in girls' sports and in girl's locker rooms. Sen. Josh Hawley asked a simple question of Dr Nisha Verma the Democrat expert witness, "Can men get pregnant?" She could not answer because transsexuals (women) who call themselves men are capable of getting pregnant. Dr Miriam Grossman says gender is based on chromosomes not subjective feelings. Matt Walsh gives a powerful speech to the Loudoun Country S.B. that they are deceiving children by saying masculine girls are boys. Jordan Peterson refuses to call a girl a boy and vice versa.</p>		
2/14/26	George Washington's Faith	1976
<p>Why are birthdays of Presidents like Lincoln, Roosevelt and Washington not celebrated? Are we ashamed of our heritage? Feb 21 is President's Day, but few people know or celebrate it. Peter Lillback, author of <i>George Washington's Sacred Fire</i>, says Washington was a strong Christian. Lincoln freed the slaves. It's an attack on our nation in an attempt to destroy it by destroying our history. Washington said, "The two indispensable pillars for government are religion and morality." Peter Marshall, author of <i>The Light and the Glory</i>, describes how God <u>supernaturally</u> protected Washington and saved our <i>rag-tag</i> Continental army.</p>		
2/7/26	God's Power and Design	1975

Dr Richard Swenson, physician, physicist and best-selling author of *More Than Meets The Eye – Fascinating Glimpses of God's Power and Design*, describes the wonders of the human body, eye, ear and brain. God works in between space and time and has an eternity to answer the prayers of billions of people in a millisecond. The physical universe is like a tiny molecule on God's throne. God displays power, precision and beauty in His universe! Cuts of **Pastor Chuck Smith** on how seeds propel them to spread away from the tree. God designed coconuts to survive without salt water until the roots can get down to fresh water.

1/31/26 **Anticipating Heaven** 1974

Do you have a vague hope that you'll go to heaven or the certain fearless faith that overcomes your fear of death? Pastor **Randy Alcorn**, founder of *Eternal Perspective Ministries*, is the author of over 60 books including *Heaven* and *We Shall See God*, gives an inspirational, heartfelt message at his wife Nanci's memorial service that will increase your faith and decrease your fear of death. Strong faith doesn't magically or instantly happen but takes study and time to put into practice. Knowing God is Almighty and loves us infinitely allows us to pray, "Thy will be done." Nanci Alcorn was transformed by her deep faith in Christ.

1/24/26 **Blood Money** 1973

Can you imagine the owner of the abortion clinic coming into *your child's school* to teach children sex ed? The abortion clinic owner, **Carol Everett**, author of *Blood Money*, said that's exactly what she did, because it increased her abortion business. Her clinic prescribed birth control pills they knew would enable girls to become pregnant. Carol Everett, who was responsible for the deaths of over 35,000 babies, tells the truth about sex ed. *Planned Parenthood* counselors have degenerated into telling children to experiment with deviant sexual behavior. Anyone with kids in school needs to hear this fascinating program.

1/17/26 **The Right to Life** 1972

Dr Bernard Nathanson, author of *The Hand of God*, was the infamous abortionist who operated the largest abortion mill in the world, killing over 75,000 babies including his *own son*. He promoted abortion by calling baby killing simply a woman's choice. *Partial birth abortion* is really infanticide. **Gianna Jessin** miraculously survived an abortion, and remarkably the nurse called an ambulance to take her to the hospital. She gives one of the most profound / powerful speeches before the Australian Parliament! She says she is a voice from God telling us that we're killing His babies. **Mark Davis** says we know it is a baby and it's murder.

1/10/26 **Creation Mysteries Explained** 1971

How long was each day in the days of creation? 24 hours or 1000 years? What did Jesus believe about the age of the earth? How old was Adam when he was created? **Dennis Petersen**, author of *Unlocking the Mysteries of Creation – The Explorers Guide to the Awesome Works of God*, says post flood / ancient man produced electricity and miniature airplanes. How were human bodies so well preserved that thousands of years later the organs and even the food eaten were preserved. How did ancient man move 100-ton stones into pyramids so precise you could not fit a credit card between the blocks? These ancient people had great knowledge and skill.

1/3/26 **Answers for Skeptics** 1970

What do you say to someone asks, "How do you know God exists?" How is Christianity different from other religions? Did other religious leaders do miracles like Jesus did? **Tom Short**, the author of "*5 Crucial Questions About Christianity*," says Christianity is a THINKING person's religion that has a basis in logic that answers to the toughest questions. Inadequately trained students are easily persuaded by secular teachers to give up their Christian beliefs. When asked, "Was Hitler evil?" Students said, "We can't judge him since he doesn't fit into our social constraints." This generation has been taught not to make moral judgments.

12/27/25 **Classic Christian Composers** 1969

Christmas would not be the same without Christmas music. It's ironic that public schools censor out any music that mentions Jesus as Lord, yet the greatest musicians were Christians. Mozart, Beethoven, Bach, Handel... were born again Christians who loved our Lord. **Dr Patrick Kavanaugh**, author of *Devotions from the World of Music*, and *Raising Musical Kids*, gives some fascinating details into the lives of the world's greatest composers and some great ideas how to help your child develop a love for good music. What do you say when your little Mozart wants to quit his music lessons?

12/20/25 **Emanuel – God With Us** 1968

The greatest event in all history was that the Creator of the universe became a baby, the man Jesus. It's amazing that the God who created everything came to earth as a single cell, says famed actor **Bruce Marchiano**. Pastor **Francis Chan**, author of *Crazy Love*, gives an impassioned Christmas message exclaiming how God emptied himself and left heaven to become a man! If you want to know what God is like, look at Jesus! Jesus shows that God isn't angry but loving, patient and kind. When a primitive tribe first heard the gospel and how God had forgiven them of all sins, they leaped for joy and celebrated for hours.
