“He **has risen**, just as he said. Suddenly Jesus met them. “Greetings. Do not be afraid. Go tell my brothers to go to Galilee, and they will **see me!**”
Mt 28:6-10

What happens when the lights go out in America?

“We are facing a “cyber-Pearl Harbor” of *catastrophic proportions*. A cyber attack or an electro magnetic pulse, (**EMP**) attack could shut down telecommunication, transportation, banking, energy services and even the nation’s electrical grid.” US Secretary of Defense Leon Panetta Warns of Dire Threat of Cyber-attack on U.S. -N.Y. Times 10/11/12

What would an EMP attack mean for YOU?

Electricity is the foundation of our advanced civilization. We are so un-prepared to live without it that we could devolve into a third world nation! A high altitude nuclear explosion by terrorists could be **breathtakingly catastrophic**- a bigger threat than 9/11 or hurricane Katrina. *Electronics and electricity would be gone*. Imagine what this nation would be like if there was no electricity and electronic devices did not work: no cell phones, cars stopped on roads, no trucks to deliver food, no trains, planes would fall out of the sky and crash on the cities below, gas stations wouldn’t be able to pump gas, water stations unable to pump water. This means no food, no water, no Internet, no TV or radio. This means people starve and there will be rioting in the streets. No police, no firemen and hospitals will be jammed up and power down. (How long do generators last without gas?)

What are the chances of such a catastrophe?

Eugene Habiger, former commander-in-chief of the *US Strategic Command* issued a most dire warning,
“It’s not a matter of **IF**, it’s a matter of **WHEN!**”

- We had warnings about terrorists flying airplanes into buildings and ignored them until 9/11.
- Seventy years ago, doubters said Japan would not be so foolish to attack the USA. Then came **Pearl Harbor**.
- Yet the attack on Pearl Harbor took much more planning and logistics than would be needed to bring an EMP attack over this nation today.

Peter Pry, the executive director of the *Task Force on National and Homeland Security*, served on the *Congressional EMP Commission*, the *House Armed Services Committee*, and the CIA, gave this dire warning:

North Korea has labored for years and starved its people so it could develop an intercontinental missile capable of reaching the United States. Why? So that they would have a special nuclear weapon that **could destroy the United States with a single blow**. Russian generals warned that secrets had leaked to North Korea for a decisive new nuclear weapon — a **Super-EMP** warhead that will destroy electronics and could **collapse the electric power grid** and other critical infrastructures. All could be destroyed by a single nuclear EMP attack.

Such an attack would be **irreversible and inflict maximum damage**. The EMP Commission estimates that within one year of an EMP attack, two-thirds of the U.S. population — 200 million Americans — would probably **perish from starvation, disease and societal collapse**. The consequences are so extremely grave that it poses a mortal threat to the United States and would **destroy the foundations of the existing world order**. For the first time in history, failed little states like North Korea and Iran, that cannot even feed their own people, will have power to blackmail or destroy the largest and most successful societies on Earth. North Korea and Iran are desperate and highly unpredictable. Our government owes the American people protection from an EMP Apocalypse. Dr Peter Pry. Dr Pry endorsed the book “*A Nation Forsaken- EMP: The Escalating Threat of an American Catastrophe*.”

Iran launched a monkey into space. So what? What’s the big deal? Retired Israeli Brigadier General Asaf Agmon said, “The science you need to launch a monkey into space is the same that you need to send a warhead over the Atlantic Ocean. There’s a connection and the world can no longer ignore it.”

A Nation Forsaken pt 1 #1302

Mike Maloof, author of *A Nation Forsaken-EMP: The Escalating Threat of An American Catastrophe*, spent 30 years with the Defense Department protecting us from terrorism and now warns that it’s not “if” but “when” an EMP will be exploded over this country. It **will** shut down the power grid and electronic devices. It can be

prevented but our government is ignoring it, so we need to prepare ourselves. How can a huge solar flare, an EMP or RF weapons shut down communications and transportations? How long would it last? What can we do?

The New Weapon Isn't Bullets But RF Weapons

Another kind of EMP threat is posed by radio-frequency (RF) weapons that can be made by terrorists using parts purchased at Radio Shack. The most powerful energy gun ever built is the **FLUX GUN** capable of firing an EMP pulse of tens of mega joules. This is the equivalent of a **10-ton truck slamming into you going 100 mph**. This weapon delivers a billion watts in a billionth of a second. **And this weapon fits into a holster**. A EMP shock wave can be produced by a small device that could fit into a brief case. It's like a *Buck Rogers space gun* but

this isn't science fiction but science fact!

It took \$26 billion and 130,000 of our nation's finest minds to perfect an atomic bomb. All it would take to produce an RF (radio frequency) weapon capable of doing as much damage – if it was strategically placed- is a high school science education and \$400. There are how-to instructions with schematics for making an effective EMP or RF weapon on the Internet with components found in any electronics store. A terrorist could set up an RF weapon at a major airport (Washington or NYC) and bring down an airplane killing thousands on the ground below. Our government is ***doing nothing to prevent this disaster!*** What will they do when a *catastrophe* strikes?

Will they protect us, or treat us like the US Ambassador to Benghazi and ignore his pleas for help? The President and the Secretary of State are either grossly incompetent or they have sacrificed four American lives to their own political ambitions. Their failure to respond to the Benghazi tragedy when they had the means and the authority was a death sentence for Ambassador Stevens and the other three people who died with him. Does that make Obama and Hillary accessories to murder *when they could have saved those men and they chose not to?*

Twilight in America pt 2 #1303

America is targeted for a radical transformation from Christian and free to Islam and oppressive.

Why are public schools promoting **Islam** when Christianity gave us freedom and prosperity? There's no freedom in Islamic countries. There are no Bibles or Churches or Jews in Mecca. Religious freedom is forbidden. Christians are imprisoned and killed for ***simply being Christian***. Honor killings, slavery and brutally cutting off body parts are part of Islam. What's the connection between the Left, which controls the curriculum, and Islam? They are united by a common hatred for Judeo-Christian values. So schools promote Islam.

Islamic bias in textbooks claim ***Allah is Almighty God***, and Jesus was *just a Palestinian*, and it was **Muslims** who discovered America before Columbus. One text says, "Moses claimed to receive the Ten Commandments from God, *but Mohammed received* the Koran from God." Another says, "Jesus is believed by his followers to be the Messiah, but **it's a fact** that Gabriel sent revelations to Mohammed over 22 years." Don't parents realize their children are being indoctrinated into Islam?

Martin Mawyer, author of *Twilight In America -The Untold Story of Islamic Terrorist Training Camps Inside America*, describes the terrorist training camps he has personally seen and how they brutally enforce Sharia Law. One 50 year-old woman was tied to a tree and brutally whipped for disobedience. An undercover informant exposes the secret Jihadi army inside this country, but the fed are under orders from the highest office to leave them alone. Polygamy is encouraged in the camps and the myriad of children and adolescents are indoctrinated in to jihad. This will produce terrorism with homegrown terrorists.

Islam is our ***avowed enemy***, yet there are at least 6 Muslim activists working in the Obama administration who have a strong influence over US policy. Obama's nominee for CIA director is a ***convert to Islam*** by the Muslim brotherhood. Why are Islamic activists working in the Obama Administration? Obama claims to be Christian. Aren't there *any qualified Christians* for these jobs? For more than 30 years, Obama has been wearing a ring on his finger that declares only Allah is his god. That's strange for someone claiming to be Christian. Let's face it, the Commander-in-Chief of the world's most powerful military is a MUSLIM! That's not our opinion. Obama wrote in his own book, *Audacity of Hope*, "**I will stand with the Muslims** should the winds shift in an ugly direction." Obama has never repudiated that statement.

Jesus – Lord of All #1304

This is one of the most inspirational programs we have ever made. William Frey, author of *The Dance of Hope*, tells how the Resurrection was like a news flash - fascinating news that's exciting and life changing! Death no longer has any power over them or us. Now there's nothing to fear, only *expectations of joy* in heaven. Although the disciples had lost all hope, they emerged *fearless men, unafraid of crucifixion*. These transformed men changed the world. On the day before Jesus appeared to them, the disciples were hiding in the upper room. Yet hours later they were standing up boldly in Jerusalem, no longer cowering in fear, but boldly giving full testimony of the resurrection. What made the difference? What made cowards change so quickly into bold, courageous men and united into a cohesive force. Only one thing! The *resurrection of Jesus Christ!* Professional actor, Bruce Marchiano, dramatically tells how the lifeless body of Jesus came vibrantly back to life through God's power.

Christ Can Save America #1305

We are a nation on a suicide course as people look to *government as their god*. Only Christ can save America as humanism has undermined the foundational Biblical principle, in which government is to be a servant of God and the people, *not our master*. This unique concept has made this nation the most free and prosperous in history. Mike LeMay, author of *The Suicide of American Christianity- Drinking the "Cool-Aid" of Secular Humanism*, says Christianity is not *affecting* the culture because the culture is *infecting* the Church, as generations of Christian students learn the ways of the world in public schools. Mike LeMay wrote:

- 50 years ago a child was precious. Today it's *disposable property* - dependent on the whim of whether the mother wants the *inconvenience* of having a baby.
- 50 years ago homosexuality was a sin. Today its celebrated as freedom and encouraged for school children to explore. Homosexual marriage (an oxymoron) is legal in 8 states and with an upcoming Supreme Court ruling it may force its legality on every state.
- Pornography used to be considered immoral. Now 30% of women, 70% of men and **54% of pastors** view porn in print or on the Internet
- Islam has become the *darling religion* of American culture. Although Islam teaches that homosexuals, abortionists and adulterers are to be put to death, yet it's embraced as a *religion of tolerance*.

But even with this massive Satanic assault against the American Church, it should be *no match* for the Church. The Church has two powerful weapons, the Truth of God's word and the power of the Holy Spirit. But *evangelically* have left those weapons behind and tried to fight the battle with their own strength and tactics.

What has happened to our one-time Christian culture? Pastors and parents continue to defy God's Commands (Deu 6:6-9 & Eph 6:4) by sending their children to an atheist school system. Then we're surprised they don't remain Christians. As Mike LeMay wrote:

"No institution has done more to change our culture from Christian to pagan than the public school system. The average parent spends 5-7 minutes a day with their child in meaningful conversation. The school has the child for 7 hours a day. Who has more influence? Under the leadership of the NEA, the school system sees it as their duty to eliminate Christian ideas and replace them with anti-Christian beliefs. No wonder 90% reject the Christian faith. The humanist view, devoid of God, **is socialism** and tries to make **government god** giving us everything we need for free. When government runs out of other people's money, it becomes a cruel master making slaves out of its dependants. That's tyranny."

Cold Case Christianity #1298 pt.1

Just as schools have ruled God out, so they've eliminated protecting children from armed intruders, making schools targets. Before the enactment of the gun free school zones in 1996, there were only two mass school shootings. But since then have been 10 mass school shootings. Clearly the gun ban only works for the shooter. If you were the killer, wouldn't you go to a gun free zone where no one could stop you?

With the Newtown CT school massacre, schools are re-considering *arming school personnel*. But ironically, the liberal left wants more gun control. *They can't distinguish between good guys and bad guys with guns*. Jim Wallace, author of *Cold Case Christianity- A Homicide Detective Investigates the Claims of The Gospels*, is an

LA homicide detective who was an atheist because, as he said, “Supernatural beings are not good suspects in murder cases.” He never considered the gospel accounts as anything but *religious mythology*. Then he evaluated the eyewitness evidence in the gospels just *as if he was investigating a murder*, using his skills as an investigator, to distinguish the truth from a conspiracy. As he read the gospels, he realized that Peter, John and the others were eyewitnesses, reporting what they SAW with their eyes, touched with their hands and experienced first hand, such as Christ’s miracles and His Resurrection. That’s when the cold case detective, Jim Wallace, realized that this is legal first hand testimony that is actual *legal proof*. In fact, Paul wrote that Jesus appeared to more than 500 brothers at the same time, most of whom are still living. (1Cor 15:5-8) These are eyewitnesses – LEGAL PROOF.

Empty tombs don’t prove anything but risen Saviors do.

When the shooting occurred in Newtown CT, all of a sudden the media demanded gun control. But look what gun control looks like. In Chicago, with the strongest gun laws in country, there were 446 school age children shot last year, and the media is silent. Why? Because with all the gun control, the *bad guys still have guns* and the *good guys can’t protect themselves*. Chicago is the Left’s utopia, run by all Democrats: Rahm Emanuel, Jesse Jackson Jr, Louis Farrakhan, Dick Durbin. They can’t blame Republicans! There aren’t any!

In response to Obama trying to make Americans believe having guns is *not necessary for protection*, we should ask him why his bodyguards and others protecting him and his family carry guns. Why are there 11 armed guards protecting his children at their private school and none at public schools? If he really believes guns are not necessary for protection, he should be the example, *take away all his body guard’s guns* and then publicize his bodyguards will no longer carry nor have access to any kind of guns!! The hypocrisy is obvious.

A LITTLE GUN HISTORY

- In 1929, the Soviet Union established gun control. From 1929 to 1953, about 20 million dissidents, unable to defend themselves, were rounded up and exterminated.
- In 1911, Turkey established gun control. From 1915 to 1917, 1.5 million Armenians, unable to defend themselves, were rounded up and exterminated.
- Germany established gun control in 1938 and from 1939 to 1945, a total of 13 million Jews and others who were unable to defend themselves, were rounded up and exterminated.
- China established gun control in 1935. From 1948 to 1952, 20 million political dissidents, unable to defend themselves, were rounded up and exterminated
- Guatemala established gun control in 1964. From 1964 to 1981, 100,000 Mayan Indians, unable to defend themselves, were rounded up and exterminated.
- Uganda established gun control in 1970. From 1971 to 1979, 300,000 Christians, unable to defend themselves, were rounded up and exterminated.
- Cambodia established gun control in 1956. From 1975 to 1977, one million educated people, unable to defend themselves, were rounded up and exterminated.

Defenseless people rounded up and exterminated in the 20th Century because of gun control: 56 million.

You won’t see this data on the US evening news or hear politicians disseminating this information. ***Guns in the hands of honest citizens save lives*** and property and, yes, gun-control laws adversely affect only the law-abiding citizens. Take note my fellow Americans before it’s too late! The next time someone talks in favor of gun control, please remind them of this history lesson. With guns, we are 'citizens'. Without them, ***we are 'subjects'!***

During WWII, the Japanese decided not to invade America because they knew most Americans were ARMED!

Vermont State Rep. Fred Maslack proposed a bill to register "non-gun-owners" and require them to pay a \$500 fee if they don’t own a gun, because the 2nd Amendment isn’t simply a right to own a gun but ‘a mandate to!’

Switzerland issues every household A GUN! Switzerland has the lowest GUN RELATED CRIME RATE of any civilized country in the world. Don’t let our government waste million of our tax dollars in an effort to make all law-abiding citizens an easy target. As Founder Thomas Jefferson said, “The strongest reason for the people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government.”

“So they said, “Lord, look, here are two swords.” And Jesus said to them, “It is enough.” Luke 22:38

(Swords were the **handguns** of that day.)

Disarming innocent people doesn't protect them. Well duh.

If you don't like guns, then **don't buy one**. But don't take other people's guns away!

Police protection is an oxymoron. Police do not protect you from crime; they usually investigate the crime after it happens. Free citizens must protect themselves. ***When the government outlaws guns, only the outlaws will have guns.*** Gun control isn't about guns, it's about CONTROL. ***You don't shoot to kill but to stay alive.*** When seconds count, police are minutes away. The average response time for a 911 call is 23 minutes. The response time of a .357 is 1400 feet/second. **Take your pick.**

*We can trust police, restaurants, our spouse, our car, our gun, but ultimately our trust must be **in the Lord.***

Meet The Skeptic #1299 pt. 2

According to Gallup, 71% of Americans believe religion is losing its influence on American life. Atheist Clubs have become popular on campuses. One leader said, "Atheists and agnostics are the largest increasing group because there's no real evidence for God." An agnostic said "he goes to church for his heart and to the Freethinkers club for his mind."

What would you say to a skeptic who asks, "What's the evidence for God? Hasn't science disproved the Bible?" **Bill Foster**, author of *Meet the Skeptic – A Field Guide to Faith Conversations*, says before you give an answer ask a question, "How **has science disproved the Bible?**" or "What are the contradictions in the Bible?" To the skeptic who says, "Your religion is intolerant." Ask what he means by "intolerant." Oftentimes there is a hidden agenda behind a skeptic's disbelief. When Jesus was asked, "Good teacher, what must I do to get eternal life?" Instead of giving him a direct answer, notice that Jesus asked him a question to see what his true motivations were behind the question. It was the rich young ruler's love of money. So Jesus told him to sell everything to show what was most important to him.

While it's true we can't argue people to belief, it's also true ignorance won't bring them over either. Reasonable arguments are necessary to raise their interest and give credibility to the Bible!

Words like, "in Christ," or "in my heart," or "inspired by God," have different meanings for skeptics. If you say "A person must be born again to get into heaven," a skeptic may hear "A desperate person needs a mystical or emotional experience to gain a sense of purpose." If you say, "The Bible is inspired by the Holy Spirit," the skeptic may think that ***a musician was really inspired*** when he wrote a song. It's not the same! The Biblical writers were **supernaturally directed by God** to write what they did. 2 Pe 1:16 "We did not follow cleverly invented stories ... **but we were eyewitnesses** of his majesty."

"Never qualify a Biblical verse with "for me," which renders the scripture subjective and irrelevant. "For me the Bible is true." No! The Bible is absolutely true whether a skeptic believes it or not. Why can't a person get to heaven by being good? If a person could get to heaven by being good, why did Jesus have to die on the cross?

We need to make it clear that faith in God is not simply a wishful thinking but is based on sound evidence. The skeptic who objects to God's standards uses his own standard to judge God. That's not tolerant of God.

A Man & His Guide Dog on 911

pt 1 & 2 #1300-1301

How would you overcome extreme fear and panic and remain calm if you were in the World Trade Center on 911 and you were completely blind? Listen to a total triumph of trust in this horrific catastrophe as a blind man, **Michael Hingson**, describes his miraculous survival in the face of imminent death. This is a story of God's grace, a dog's patience, and a man's perseverance. Michael Hingson, the national ambassador for the *Braille Literacy Campaign*, is the author of *Thunder Dog- The True Story of A Blind Man, His Guide Dog & The Triumph of Trust at Ground Zero*. Although Roselle, Mike's guide dog, was intensely focused on guiding him and others to safety, she kissed a firefighter on his way up the stairs, the last kiss of unconditional love he would ever receive on this earth, and she calmed many other panicked people with her gentle love.

Michael Hingson, completely blind since birth, can ride a bicycle, drive a car, fly an airplane, and he got out of the towering inferno on 911. He is a cum laude graduate of UC Irvine and has a master's degree in physics. Unemployment among the blind is 70%, even though they are capable, they are rejected because of prejudice

against blind people. Blindness doesn't destroys people from a full life. Michael instructs blind people on how to use new technology that enables them to read a computer and use alternative ways to do things. There are blind architects, engineers, doctors, teachers, scientists and artists.

The Slaughter of the Innocent #1294

Our nation grieved over the slaughter of the 20 innocent school children in CT, but why won't they grieve over the 1.2 million babies slaughtered in abortion each year? **Gianna Jessin**, survived a late term abortion so that she could be a voice from God that we're killing our next generation. **Dr Bernard Nathanson**, author of *The Hand of God*, who's now in heaven, was the infamous abortionist who operated the largest abortion mill in the world, killing over 75,000 babies including his own son. He admitted that **he lied to the gullible media** about making abortion safe by making it legal and thus helped make abortion legal.

The value of life in our society: Eagle eggs: Destroying one is punishable by a \$250,000 fine or 2 years in prison. Unborn baby: Not only is it legal to kill one but Obama is forcing taxpayers to **pay for it's execution!**

Purity #1295

More and more young people are co-habiting. Worse yet, the illegitimacy rate in the U.S. in the last 30 years has more than doubled to 41%. Marriage reduces poverty dramatically and strengthens the moral and spiritual fiber of our nation. Marriage transcends every political system and must be preserved. It's a spiritual battle, but the enemy camouflages immorality as *pleasure*. Young people are dying because of STD's, yet 65% take the chance and lose their virginity by high school graduation. Today, *purity means life* but *promiscuity leads to death*. AIDS is the leading cause of death among young people ages 25 to 44. Pastor and high school assembly speaker, **Doug Herman**, author of *Time For a Pure Revolution*, lost his young wife and little daughter to an AIDS tainted blood transfusion and is on a crusade to save lives through *purity*. **Bob and Dannah Gresh** are the authors of *Who Moved The Goal Post?* and *The Bride Wore White*.

The Genius of Ancient Man

p 1 & 2 #1296-1297

The idea that ancient men were primitive brutes, cave men, is a lie that fits the evolutionary model but doesn't explain the evidence that ancient man was brilliant. Adam was created perfectly from God's own hand. The cave man myth contradicts the Biblical account that says the people who lived before the flood were extremely intelligent, lived hundreds of years and invented amazing things. **Don Landis**, editor of *The Genius of Ancient Man-Evolution's Nightmare!* gives fascinating examples such as the pyramids. How did ancient man move massive 100-ton stones and fit them so precisely together that you couldn't slide a credit card in the joints?

The tower of Babel was a **religious tower** showing rebellion against God. It was humanism where man tried to be God. The religion of Babel is still here. Guests include; **Tom Dooley**, author of *The True Story of Noah's Ark*, who says because of man's sin, God brought the **Great Flood** drowning *billions* of people but saving ONE MAN Noah and his family. Thus it's better to please only God than go along with the whole world. **Dennis Petersen**, author of *Unlocking the Mysteries of Creation & Mike Oard*, *Uncovering the Mysterious Woolly Mammoth*.

Only in America

- Only in America, could politicians talk about the greed of the rich at a \$35,000.00 a plate fund-raiser.
- Only in America, do some claim that the government discriminates against blacks when they have a black President, a black Attorney General, and roughly 18% of the federal workforce is black!
- Only in America, can terrorists kill people in the name of Allah and have the media fretting that Muslims might be harmed in a backlash.
- Only in America, could those who want to legally become American citizens wait for years and pay tens of thousands of dollars while those who sneak into the country illegally just 'magically' becomes a citizen.
- Only in America, do those who want a balanced budget and follow the Constitution be called "extremists."
- Only in America, do you need a driver's license to cash a check or buy alcohol, but not to vote.
- Only in America, does the government collect more tax dollars than any nation in history then spend a trillion dollars more than it takes in per year and complain that it doesn't have enough money.

- Only in America, could the rich - who pay 86% of all income taxes - be accused of not paying their "fair share" by people who don't pay any income taxes at all!

The Left screams for tolerance except when the intolerance is for Christians.

Only in New York would a school *treat a blessing like a curse* as a student's well-wishes for her classmates were deemed too religious. The 8th-grade co-president wanted to express a blessing at the end of her graduation speech at the Taconic Hills Central School District but was prohibited from doing so. She simply wanted to express her hope that "God would bless and keep" her classmates as they moved on to high school.

School officials thought her words "sounded 'too religious.'"

I think we might be on to the root of the problem. Why is it that those who steal guns, then kill movie-goers and kill innocent, unprotected children in school, have never been a conservative NRA member?

- Maj. Nidal Hasan (Ft Hood terrorist) - Registered Democrat – Muslim.
- Eric Harris and Dylan Klebold (Columbine) were too young to vote but both families were registered Democrats and liberals. Seung-Hui Cho (Virginia Tech) a Democrat wrote hate mail to President Bush!
- James Holmes (Colorado Theater Killer) - Registered Democrat; a staff worker on the Obama campaign; an Occupy Wall Street participant; progressive liberal.
- Jared Lee Loughner (the guy who shot Gabby Gifford) was a registered Democrat.
- Adam Lanza (Connecticut School Shooter) - Registered Democrat; hated Christians.
- Christopher Dorner (California killer) – Registered Democrat. His "Manifesto" supported gun control. He was an anti NRA, Obama supporter.

Common thread is that *all of these shooters* were liberal **Democrats**. Seems guns don't kill, **Democrats do**.

The commander-in-chief approved of hundreds of thousands of dollars in new spending for homosexual partner perks. Starting August 31, the same-sex boyfriends and girlfriends of service members will be eligible for privileges that even cohabiting heterosexuals are not: military ID cards, access to military commissaries, gymnasiums, and movie theaters, participation in family support programs on bases and posts, and the chance to fly on Defense Department aircraft on the taxpayers' expense.

For liberals who claim to want to stop *discrimination*, this policy is *full of discrimination!* The U.S. government has decided that what you do in the bedroom qualifies you for federally-subsidized benefits (unless you happen to be **heterosexual**, like 96.6% of the U.S. population). Washington is officially in the business of incentivizing homosexual behavior in our military!

Sen. Inhofe said, "Why would the DOD extend benefits to same-sex partners and then deny cohabiting heterosexual couples the same benefits? President Obama continues to expand the government's support for his liberal social agenda during a time when this administration has imposed drastic budget cuts to our military readiness and national security."

Once this *inequity* goes into effect, the radical transformation of *the world's most elite force* will be almost complete. The White House will have four more years to deliver its final blows: women serving in combat and opening the ranks to the transgendered and **abolishing religious expression** and exercise. Both are well within reach of a commander-in-chief who's more committed to fighting the homosexuals' battles than our own.

Family Research Council 2/12/13

HOW IS IT YOU NEED A BACKGROUND CHECK TO OWN A GUN BUT NOT TO RUN A COUNTRY?

While this administration is trying to prevent law-abiding American citizens from owning firearms, it is sending tanks and jets to the radical Muslim Brotherhood in Egypt -- weapons that could well be used against our ally Israel.

I was at my local Kroger buying a large bag of Purina dog chow for my loyal pet, Jake, the Wonder Dog and was in the checkout line when a woman behind me asked if I had a dog. What did she think I had an elephant?

So because I'm retired and have little to do, on impulse I told her that no, *I didn't have a dog, I was starting the **Purina Diet*** again. I added that I probably shouldn't, because I ended up in the hospital last time, but that I'd lost 50 pounds before I awakened in an intensive care ward with tubes coming out of most of my orifices and IVs in

both arms. I told her that it was essentially a Perfect Diet and that the way that it works is to load your pants pockets with Purina Nuggets and simply eat one or two every time you feel hungry. The food is nutritionally complete so it works well and I was going to try it again. (I have to mention here that practically everyone in line was now enthralled with my story.)

Horrified, she asked if I ended up in intensive care, because the dog food poisoned me. I told her no, I stopped to Pee on a Fire Hydrant and a car hit me. I thought the guy behind her was going to have a heart attack he was laughing so hard. Kroger won't let me shop there anymore. Better watch what you ask retired people. They have all the time in the World to think of crazy things to say.
