

Second Quarter 2007

PO Box 12555, Prescott AZ 86304, 1 888 ISSUES-9 web site<[www.issuesineducation.org](http://www.issuesineducation.org)> Bob & Geri Boyd

*"If I knew I would lived this long I would have taken better care of myself."* Winston Churchill at age 85!

"We are very close to losing *alternative health care* in America. The FDA is trying to **take away our health freedom** [to even buy vitamins] through an unholy partnership with Big Pharma and the Codex so even basic vitamins and minerals will *require a doctor's prescription*. The FDA has even targeted juice." DeWeese Report June 07 FDA's draft <http://www.fda.gov/OHRMS/DOCKETS/98fr/E7-3259.htm>.

**People today are exposed to more chemical toxins in our air, food, and water than at any time in our history. This is not the time to lose natural medical prevention and healing.**

The older we get the more *environmental toxins*, plus the stress of life, *build up* in our bodies and devastate our natural defenses. The older we get the more *cancer, heart disease and diabetes* can overpower our immune system. Are there ways to prevent these diseases?

A listener named Tom Balk heard our program and called us with a fascinating testimony of how he had hepatitis C and was told by his doctors that he was terminal and would die. There was nothing they could do to help him. Someone on Tom's prayer chain got word back to Tom that there was a medical doctor and scientist, Dr Burt Berkson, who could help him.

Tom went to Dr Berkson and within a few weeks, Tom was *restored to health*. Tom returned to the doctors who told him that he would die, and with his blood tests in hand, showed them he was completely cured! *They were astonished*, but when Tom began telling them what cured him the doctors *turned away in doubt and disbelief*. Here's the cure staring them in the face and they were NOT EVEN interested because it didn't fit into their medical training. *Breakthrough Discoveries* part 1

Tom was a terminal patient. But with a natural substance, Dr Berkson saved Tom's life. Amazingly the medical doctors weren't interested in what cured Tom. Tom Balk's fascinating story is told in our program entitled, *Breakthrough Discoveries*. Dr Burt Berkson tells of amazing cures for Hepatitis C, cancer, heart disease, diabetes and fibromyalgia and other fatal diseases. *Why aren't these medical breakthroughs heralded in the medical communities?* Internationally famous Dr Julian Whitaker wrote this in the foreword of Dr Berkson's book, *The Alpha Lipoic Acid Breakthrough*:

When I was in medical school I was convinced that the medical profession was pure and wanted to alleviate suffering and disease. Today, thirty years later, the profession embarrasses me. I now realize that the majority of physicians, particularly those in positions of power and authority, have no intention of investing in therapies other than those from pharmaceutical manufacturers. In fact, as macabre as it may seem, many physicians would rather that their patients die than be saved by an unconventional approach. *The ALA Breakthrough* by Dr Burt Berkson

Dr Burt Berkson is a medical doctor and scientist who is one of the world's foremost authorities on alpha lipoic acid. He also has helped many cancer patients with low dose naltrexone. Dr Berkson did a presentation to the *National Cancer Institute* (NIH) in Bethesda April 20, 2007 and he said his

presentation went perfectly with no arguments, just very interested doctors. In fact, the director sent him a letter suggesting he do a large study funded by NIH.

---

World renowned physician and scientist, **Dr Mattias Rath** is the author of *Why Animals Don't Get Heart Attacks But People Do*. He documents one of *the most significant medical breakthroughs ever made in human health*. *Dr Rath says the number one cause of death (heart disease) is preventable and treatable!* Northern Europeans have the highest rate of *heart disease and the lowest levels of vitamins*. But Southern Europeans have the lowest levels of heart disease and the highest blood levels of vitamins. Is there a connection between certain *vitamins and diseases*?

*Dr Rath said, "The victory over cancer and heart disease is at hand."* Dr Rath's research reveals that specific nutrients can inhibit the invasion of cancer cells, and specific nutrients can reduce and prevent plaque build up in coronary vessels. *Breakthrough Discoveries* part 2 #995

Why has this been ignored by the medical and pharmaceutical industries? Why don't we hear more about these "natural" cures? The medical/pharmaceutical industries are *trillion dollar* businesses.

If a cure for heart disease and cancer was found that was inexpensive and a natural substance without side effects, do you honestly think the medical/pharmaceutical industries would make it known? *They would go out of business.* They would buy it, bury it and do everything they could to suppress any word of it from getting to the public. Why would they do research to prove a common, inexpensive vitamin or dietary supplement works *when it would put them out of business*?

*In fact, there's a bill in the US Senate, by Senator Ted Kennedy (S. 1082), that would adversely affect your ability to buy natural supplements. What if only MD's could prescribe vitamins? Consumers would have no choice except **drugs and surgery**.*

## **They Are Coming After Conservative Talk Radio**

By Gary Bauer

The signs are unmistakable. The newly empowered radical Left that controls Congress is looking for ways to muzzle conservative talk radio. A liberal think tank, the *Center for American Progress*, issued a report charging that 91% of weekday talk radio is conservative, compared to the 9% that's liberal. They then ominously suggest that this *imbalance* is a violation of the license standards which require radio stations to act "in the public interest." To them, "public interest" means liberal propaganda! Almost immediately liberal members of Congress announced that they would reintroduce legislation to regulate the content of radio shows, legislation ironically misnamed the "Fairness Doctrine." **Academia is already dominated by the Left** and the big three networks, cable, public radio, newspapers, etc. -- dish out a constant stream of liberal pablum. Another study showed that nearly 90% of political giving by journalists went to Democrats. Talk radio is conservative because it is virtually the only place half the country can go to hear a conservative world view. To put it another way, conservative talk radio IS the balance.

Speaker Nancy Pelosi said, "Conservative radio is a *huge threat* and political advantage for [conservatives] and we have to find a way to limit it." Ironic isn't it? The Left always presents itself as the tolerant defender of rights. It defends the right of atheists, who insist their rights are violated if he sees a Christmas tree; it hyperventilates if a prisoner at "Gitmo" doesn't have his own ACLU lawyer and a government provided Koran. But when it comes to conservatives, the Left doesn't hesitate to use the power of big government to silence the "other side."

Where's the BALANCE in the **major networks news**? Where's the BALANCE in Hollywood, or public schools, universities or major newspapers and publishing companies? Try to get balance in these places and the liberals would scream!

### **New Media Revolution #1007**

Why is news coverage so biased in favor of homosexuality and blatantly anti-Christian? Joseph Farah was the focus of the vast right wing conspiracy that became Bill and Hillary's *worst nightmare*. In 1994, Joseph Farah's organization began an investigation of President Clinton that exposed the most scandalous President *in our history*. In response, the White House plagued Farah's organization with months long **audits from the IRS**. Farah battled for his very survival against the unlimited powers of the federal government.

Why did he do it? Farah is a conservative, evangelical Christian. He witnessed the invasion of the major news rooms by radical activists posing as high minded journalist who have corrupted American news reporting. Joseph Farah has been part of the antidote. The internet has been a revolution that has forever changed the monopoly over news that gets to the people.

In 1995, there were only 1 million computers connected to the internet. By 1998, there were 50 million computers connected to the internet. Today there are an excess of a **billion** connections.

Network news is so liberal that it's propaganda *disguised as news*. Why do networks consider it **news** when evidence for evolution or global warning is the issue, but it's **not news** when they're exposed as *hoaxes*? The major media is blatantly *anti-Christian and liberal*. 86% of journalist, in the major media vote democrat and but don't see their own bias. But the internet is shaking their foundations.

Dynamic Christian journalist **Joseph Farah**, is the founder of World Net Daily and author of *Stop the Presses-The Inside Story of The New Media Revolution*. He exposed the Clinton scandals and their misuse of power and Dan Rather's fabrication on Bush's National Guard record. Farah says it's *past time* for Christians to home school their kids.

### **Integrity & Innovation #1003**

*What does it take to be successful in business today?* How did Bill **Hewlett** and Dave **Packard** lead the computer industry by focusing on innovation, integrity and hard work? **Bill Hewlett**, a legend of the computer industry, was **dyslexic** but got through school by memorizing everything his teachers said. At Stanford, Hewlett excelled and created some of the most intellectually demanding inventions of all time. What was there about the leadership skills of Bill Hewlett and Dave Packard that enabled them to create one of the world's greatest corporations- Hewlett Packard? Silicon Valley expert Mike Malone explains why Bill and Dave succeeded – and why their example transformed the computer industry and is the formula for success in business today.

### **Overcoming Stress #999**

Do you have too much to do and not enough time to do it? Stress, the *tyranny of the urgent*, is built into our fast paced society, but you can develop habits that bring you peace. **Deborah Smith Pegues**, a CPA, seminar leader/Bible teacher and author of *30 Days to Taming Your Stress* and *30 Days to Taming your Tongue*, says life is a journey not a race. Financial stress is a top cause of divorce. Don't let stress,

anger, chaos, regret, and a loose tongue rob you of the wonderfully full life you can have. Learn to slow down and manage your life through organization, planning and control of your words.

---

A teenage boy wrote a column in the East County Times (CA) about how he, and others, dressed like girls for the El Cerrito High School "Switch It Up Day". Students were to dress up as the opposite sex. Brian Mertens, the student body president, belongs to the **school sponsored** Gay-Straight Alliance club. Why are schools confusing students sexual identity rather than concentrating on academics? Is it any wonder there's a ***gender identity crisis*** among many of the youth?

### **Making Boys Into Men # 1008**

***Schools are feminizing boys and trying to teach that there's no differences between the sexes.*** What are the long term societal consequences of girls outperforming boys from K through grad school? **90% of Ritalin users are boys.** How can a boy become a man when most teachers are women and most families don't have a dad? If boys are high spirited, it's seen as misbehavior and they're labeled LD and put on drugs. **Don Otis**, author of *Whisker Rubs-Developing the Masculine Identity*, says there is a Biblical way to train and disciple boys so they will become Godly, mature men.

A guest speaker at an assembly at Boulder High School in Colorado told students as young as 14 to go have ***sex and use drugs***. The instructions came from Joel Becker, a professor of psychology at the UCLA who said, "I am going to encourage you to have sex and encourage you to use drugs **appropriately!**" Abstinence was dismissed as an **unwise** choice and indicative of **religious hang-ups**.

ABC News anchor John Stossel produced a documentary aptly titled "Stupid in America," that gives a visual depiction of what's educational fraud where an international test is given to **average** high school students in Belgium and **above-average** New Jersey high school students. Belgian kids outscored the New Jersey students by a **large margin**. But it's not just in Belgium where high school students do much better; it's the same for students in Poland, Czech Republic, South Korea and **17 other countries**. In the documentary Stossel interviewed an 18-year-old student who struggled to read a **first-grade book**. But when that student went to a private center he learned to read within 72 hours.

### **Is This The Best We Can Do? #1009**

How can we expect to remain a **first world nation**, if we give our kids a **third world education**? John Stossel's fascinating look at American education shows how far behind American students are compared to other nations. **Dr Robert Simonds**, President of *Citizens for Excellence in Education*, who has spent his lifetime in all aspects of education, responds to the various cuts from *Stupid in America*.

### **A New Approach to Education #1002**

What role does the Church play in educating children? In the Great Commission, Jesus mandated making disciples and **teaching** them. ***How are churches teaching children, when 90% spend all day in government schools?*** **Bruce Shortt**, author of the *Harsh Truth About Public Schools*, introduced several resolutions at the Southern Baptist Conventions calling on parents and pastors to provide education for all the children. If parents can't afford it, the church should help by using church buildings and lay people as teachers.

Martin Luther said, "There is nothing which will more surely **earn hell for a man** than the improper training of **his children**...For the child will be required from the parent on Judgement Day in a very strict reckoning."

### Why Celebrate the 4<sup>th</sup>? #1004

Why do we celebrate the 4<sup>th</sup> of July? Only 28% of 4<sup>th</sup> graders knew the significance of the Declaration of Independence. July 4<sup>th</sup> 1776 wasn't just the birth of American freedom, it was the birth of freedom around the world. Assembly speaker **Gary Horton**, speaks about the vital role that belief in God and Christianity has played in giving us our basic freedoms. But Gary has been told to leave any mention of God out of any speeches he gives in public schools. Where is *his freedom* of speech?

Who said this: "*There is no God and there is no soul.* Hence, there are no needs for the props of *traditional religion.*" Hitler, Stalin, Marx?

No it was **John Dewey**, father of modern American public education. Is it any wonder that children are taught things that directly contradict God and His Word, such as teaching evolution while denying creation and imposing the homosexual agenda on grade school children. Is it any wonder then that schools are atheistic? Yet 85-90% of Christian kids still go to public schools.

**Isn't it time to OPT OUT?**

### Opting Out #1005

Should the Bible be taught in public school today? There are some disturbing trends in public education today such as homosexuality being taught as normal. **Dr Robert Simonds**, President of Citizens for Excellence, says, "With 88% of Christian youth losing their Christian faith, Christian leaders are coming up with alternatives to public schooling."

### Darwin to Design #998

Is evolution a *theory or fact*? If evolution were true, why don't we see an abundance of new species instead of *extinction*? What proof is there for Creation? **Dr Chris Cagan**, a brilliant mathematician and statistical analyst, with two PhDs, and author of *From Darwin to Design*, was an atheist from a long line of Russian atheist/Jews. Chris believed that Christianity was only for uneducated, ignorant people. He had been taught that Christianity was dark and medieval and caused wars. That Christians killed hundreds of people during the Salem "witch trials." But later he found out that the "witch trials" lasted less than a year (1692-1693) and only 19 people died as witches.

Teachers and textbooks propagated the propaganda that the Crusades and Inquisition were caused by Christianity. But after 9/11 he realized that Islam had taken the "Holy Land" away from Christians. **Imagine if Washington DC was taken over by Muslims, wouldn't we go to war to take it back?**

So, contrary to what Chris learned in school, he began to discover Christianity wasn't responsible for war and death. It was **Darwinian humanism** that was directly or indirectly responsible for the deaths of well over **100 million people** through its influence on Fascism, Communism and the abortion movement. Chris had a direct and sudden experience with the living God. He is now a very powerful, passionate Christian, he has a Ph.D. in apologetics, and is convinced there's **no excuse for atheism**. Take a look around you, design has to have a **Designer**.

### Control Education- Control the Future #1000

The most important issue facing the Church and nation is over who will raise *this generation*.

We are in a great Civil War of Values today. The struggle is for the hearts and minds of the children. The **enemy's main weapon is the public school system**. For nearly a century, Christians have been losing this war because they've been focusing on **symptoms** rather than the **root** of the problem. How

important is a Christian education to pastors and parents, when you consider that less than 5% of churches have a Christian school and 90% of their kids go to secular schools?

The education of children for God is the most important business done on earth! Every parent especially ought to feel, every hour of the day that next to making his own calling and election sure, *this is the end for which he is kept alive by God – this is his task on earth.*” Prof R.L Dabney

Whoever controls education controls that society. Gary DeMar, of *American Vision* and author of *Whoever Controls the Schools Controls the World*, says we send out missionaries to convert heathens and yet here at home we turn our own children over to humanists to educate and disciple them.

### **Coach Dave’s Winning Battle #1006**

Are Christian teachers and coaches being eliminated from public schools for being too Christian? *Is there anything Christian about a public school education?* Coach Dave Daubenmire, was an excellent football coach, but he would pray with the team on the field. Then the ACLU sued. Coach Dave is the author of some excellent articles such as *Acknowledgment is not Establishment*, *ADD Absent Dad Disorder*, *The High Costs of “Free” State Schooling...* In *Second Hand Humanism*, Dave says, “Smoking merely kills the body. Humanism kills the soul. Second-hand humanism is worse than second-hand smoke.”

*Why do Christians support an educational system that teaches the opposite of everything they believe:*

*Do you believe God created you? What does your school teach?*

*Do you believe in abstinence? What does your school teach?*

*Do you believe in absolute rights and wrongs? What does your school teach?*

*Do you believe the environment is more important than an unborn child? What does your school teach?*

### **An Eternal Perspective #1001**

How can a single mother home school? Skeet Savage, a single mom, was homeless (in a freezing Michigan winter), destitute, in poor health, and on her way to commit suicide when the Lord changed her life. How could she teach her six children when she flunked out of high school *herself*? Skeet not only home schooled all of her 6 kids, she became a successful national speaker, publisher of *Home School Digest*, and author of *Home Schooling for Eternity*. Jesus Christ said, “A student will become like his teacher.” Will Christian students who have a secular teacher become secular?

### **Capturing a Generation #996**

*Gay indoctrination infuriates parents.* But selling homosexuality to America’s schoolchildren has become law in many states. *It’s Elementary* is a shocking training video used in training teachers in Colleges of Education. We play cuts from the video to show how teachers cleverly persuade their impressionable children to believe there’s no right or wrong in gay & lesbian behavior. Ed Vitagliano, with the *American Family Association* says the strategy is to tell parents it’s simply *protection from bullying* but it’s open *promotion of perversion*.

*What will make the Church relevant again?*

### **Contending for This Generation #997**

Is Christianity losing the battle for the minds and hearts of this generation? What influence is the church having in a culture where only 8% of *American teenagers attend a church*, ever? What does that say about the future of the Church? Pastor Rick Taylor, gives solid, Biblical reasons why he started a Christian school in his church. Dr Bob Dreyfus, with *Exodus Mandate*, says giving kids a Christian

education is far more effective than trying to evangelize adults. Yet most time and money is spent on adult evangelism. "Cliff side evangelism" isn't as effective as Christian education.

**To be a good liberal:**

- You have to be against capital punishment, but support abortion.
- You have to believe that male/female (gender) roles are artificial but homosexuality is natural.
- You have to believe that businesses create oppression, but government creates prosperity.
- You have to believe that AIDS is spread by a lack of federal funding
- You have to believe that the same teacher who can't teach 4<sup>th</sup> graders how to read is somehow qualified to teach those same kids about sex. .
- You have to believe that homosexual parades displaying drag queens and transvestites are constitutionally protected, but manger scenes at Christmas are illegal.

**HUMOR FOR LEXOPHILES (LOVERS OF WORDS):**

- **Police were called to a day care where a three-year-old was resisting a rest.**
- **To write with a broken pencil is pointless.**
- **When fish are in schools they sometimes take debate.**
- **I wondered why the baseball was getting bigger. Then it hit me.**
- **The dead batteries were given out free of charge.**
- **A bicycle can't stand alone; it is two tired.**
- **A will is a dead giveaway.**
- **A chicken crossing the road: poultry in motion.**
- **A lot of money is tainted: 'Taint yours, and 'taint mine.'**
- **A boiled egg is hard to beat.**
- **He had a photographic memory which was never developed.**
- **When you've seen one shopping center you've seen a mall.**
- **When she saw her first strands of gray hair, she thought she'd dye.**
- **Bakers trade bread recipes on a knead to know basis.**
- **Acupuncture: a jab well done.**

---

Bill Borden was the son of the man who started Borden Milk Industries. When Bill Borden graduated from high school, his parents gave him a cruise around the world. He hadn't been gone very long when he sent a letter home that said, "Mom and dad – no matter what country I'm in – no matter what language the people spoke – no matter what color their skin is – I see one thing. I see people who are lost and dying and who need the Lord."

Bill wrote home in his second letter "Dear mom and dad. Pray for me. I think the Lord might be calling me into full time missions work." Finally the third letter came home and Bill wrote, "Mom and dad The Lord has called me on the mission field. I'm going home to enroll in college then seminary then I will go onto the mission field."

Bill went home enrolled at Yale University in the early 1900's when Yale was still a Christian university. Bill went through four years at Yale and graduated at the top of his class. At the same time, Bill's dad took ill and could no longer run Borden Industries. The board at Borden came to Bill and said "Bill we've voted unanimously that you are the man to take your father's position. Will you

lead this company? You have the *drive, the know how, and you graduated top* in your class. You have the right last name. You're the **man for the job.**" Bill said, "I'm going to have to **pray** about it and I'll get back with you." Two days later Bill said, "I appreciate the offer but I've got to be true to a commitment."

"I am committed to go into full time missions work. I've got to be true to that commitment." Then he said, "I've wanted this job all my life. I thought that's exactly what I'd do. But I've got to honor my commitment." They said Bill took his bible and turned to the last leaflet page and wrote down two words – "**No retreats. No retreats.**"

Bill enrolled in seminary and feeling the need to live by faith, Bill gave away everything he was receiving, as an allowance, from his wealthy family. In fact, it was said that in his four years of seminary, he gave away over \$1,000,000 to help other missions organizations because he wanted to learn to trust the Lord and raise his own missionary support. He took his bible and below the two words "no retreats", he wrote the two words "**no reserves – no reserves.**"

Finally he finished seminary and boarded a ship that would take him to Egypt. But while Bill Borden was there in Egypt he contracted cerebral meningitis and before his family could even reach Bill, he died. HE DIED before his life was really begun!!

Many people said what a fool! He could have it all. Everything the world hold dear. Power, prestige, fame, money control, everything. But he gave it all up went to a foreign land and died alone. What a fool. But he was no fool. The words of Jim Elliot are true. "He is no fool who gives what he can't keep to gain that which he can never lose."

*The story of Bill Borden traveled around the world.* Thousands of young people were challenged by the story of this young man from a very wealthy family who turned his back on the wealth of the world but chose to follow Christ. Bill gave up all the wealth and went to a foreign land and died.

Thousands of young people were moved by that and said if Bill Borden can do it I can do it too. And thousand of young people replaced Bill on the mission field. Because of one committed life – thousands of others went into full time missions work. And untold numbers came to know Jesus Christ as savior.

When Bill's family finally came to receive Bill's personal affects among them they found his bible. When they turned to the back of his bible, they read the two words "no retreats."

Below that they found the two words "**No reserves**". And then as though scrawled on his death bed they found the two words, "**No regrets. No regrets.**"

Because Romans 8:18 is true "That the sufferings of this present time are not worthy to be compared to the glory that shall be revealed in us." The choice is yours. The eternal rewards last forever.

May God give you many eternal rewards serving HIM by serving others. In Christ,
