"We live in the greatest nation in the history of the world. I hope you'll join with me as we try to change it." - Barack Obama

America is undergoing one of the most intense periods of social and economic upheavals in our history. Your freedoms are more at risk now than any other time in your lifetime.

The Cap & Tax Scam 1118

Is it really about *global warming* or *government control*?

What started as indoctrinating schoolchildren into **environmentalism** may become the **largest tax increase in history** through "cap & trade," to supposedly prevent *global warming*. But *is mankind responsible* for global warming? Indeed, is the earth even in a warming cycle? Who controls the temperature on earth – man or God? For humanists, **there is no God**- everything is up to us, mankind, to control. Maybe Al Gore gave it away when he said, "Cap & Trade will be a boost for a **global government**." So the goal isn't saving the earth but subjecting it to a one world government. H.L. Menchen said, "The urge to save humanity is always a false front for the urge to rule it."

Investment counselor, **Bob Rinear**, author of an article, *America's Descent into Marxism*, says cap & trade isn't just a huge tax increase, but it will bring massive new regulations, where government inspectors will come into your home and control the lives of private citizens, devastate the economy, and put us into a one world government.

In just 30 years, America has gone from being the largest exporter of goods to the largest importer of goods. We've gone from being the largest creditor nation to the largest debtor nation. The result, **China** has a \$2 trillion **surplus** while America runs a \$1.8 trillion **deficit**. America may need to take an economy lesson from a *communist nation*. Even Vladimir Putin of Russia warned Obama not to take this road noting that the USSR's 70 year experiment with communism was a **colossal failure**.

America has spawned a liberal/left generation raised in godless state controlled schools where, "There are more Marxists on the faculty at just Harvard than all of Eastern Europe." (George Will) The election of Obama was made possible by a majority of **younger voters** who seem to be ignorant of the imminent *threat to their freedoms* posed by the politicians they supported. America is facing massive economic and social problems unparalleled in our history. The blame rests with the **voters who elected Obama**, who embrace the same godless, humanists, socialist beliefs Obama believes. *Could it be they voted for their own destruction?* The Bible says the degree a nation and its leaders follow God's laws, the people will be blessed. The degree they spurn God and His laws the people will be cursed.

Obama's father, Barack Obama Sr., and his mentor, Frank Marshall Davis, were communists. His church of choice was one of black liberation theology with Marxists roots. Obama has surrounded himself with far-left academic types, none of which has ever even run a candy store. But they're going to run the auto, financial, banking and other industries.

The current level of spending is **irresponsible and outrageous**. We're spending trillions that we don't have! **No country has ever spent themselves into prosperity**. We are witnessing a LEFT WING REVOLUTION. The Nazis were the national socialist party who took over the car industry, the health, education and banking. They were also on the LEFT!

We are in the most serious recession since the Great Depression and this senseless legislation will wreck the economy and for WHAT? The largest tax increase in American history is a huge scam that will put us into the slavery of socialism. *But what's worse than socialism? Globalism.* Because globalism takes away our sovereignty and makes us merely one state in a one world government.

Peter Brooks of *The Heritage Foundation* said, "Sulfur from China accounts for 1/3 of California's air pollution, yet China and India are exempt from control over their pollutants." *Every 7-10 days a new coal fired plant big enough to power every house in San Diego comes on-line in China.* EVERY 7-10 DAYS! What can our puny efforts do compared with China and India's massive pollution? But the *Journal of Geophysical Research* says, "Human pollution is **negligible** in global warming." **Dr William Curtis**, author of *Global Warming the Creator's Plan*, says "man-induced global warming" is a lot of **hot air**.

- Founding father John Adams predicted, "Democracies never last long. It soon wastes, exhausts and murders itself. There was never a democracy that did not commit suicide."
- Lincoln predicted that this nation would **never be defeated by an enemy outside** our borders; but **if** we are defeated it **will come from within** our borders." Lincoln said,

*At what point should we expect the approach of danger? Should we expect some transatlantic giant to step across the ocean and crush us with a blow? Never! All the armies of Europe and Asia combined could never by force take a drink from the Ohio or make a mark on the Blue Ridge. Then at what point should danger be expected? If it ever reaches us, it must **spring up among us**. If destruction be our lot, then we ourselves must be its authors, and its finishers. As a nation of free men, we must live on through all time, or die by suicide."* Abraham Lincoln, 1836

Lincoln, who presided over America's bloodiest deadliest war said, "The ballot is stronger than the bullet." Let's remember that when the next election comes.

Why study history? A great way to help *overcome the fear of the present age* is by getting an understanding that every age experiences real terror in their time. The terror of our present age is not so terrible because people survived them before and we will survive our present terrors. -Ted Byfield

Dewey's Revolution 1119

We are in a **cultural revolution** brought about by an **educational revolution**.

How did America go from knowing right from wrong to a nation where evil is good and good is evil? How has **atheism** taken over public schools? We have had a *revolution* in America that has overthrown traditional, Christian, values and is leading us into a *brave new age*. President Obama hosted a reception for **homosexual** activists at the White House and he told them, "I will fight with you and for you." He also castigated Americans still clinging to *worn out arguments and old attitudes* about family. What *old attitudes* is he referring to? The idea that marriage means *one man and one woman*? That children deserve *mothers and fathers*? Sadly, **that's exactly what he was referring to**. Where did he get *his ideas* and beliefs? *The one man who has had greater influence over American education is John Dewey.*

John Dewey changed our culture by changing the education of children. Dewey wanted to bring a **social revolution** to America, and we are seeing its fulfillment. **Ted Byfield**, author of *Why History Matters* and a series of history books, *The Christians*, said, "Dewey, called the father of American education, was an atheist and co-founder of the **ACLU**, who wanted to liberate people from Christianity. He believed there was no such thing as right or wrong in spelling, grammar or behavior." Dewey wanted to move education away from traditional '**authoritarian accumulation** of facts' toward a student's experience. Morality is whatever each student decides for themselves without rigid rules. But more than that, he wanted to change America by undermining traditional Christianity. He saw

churches as a **delusion** which erected obstacles to a student's intellectual growth. To Dewey, Christianity was a dying myth. Dewey has had great success in **destroying** our Christian culture, but in doing that, he is about to *destroy our whole society*.

Everybody who took Anthropology or Sociology remembers Margaret Mead. We sure do. (This sets the record straight.)

Margaret Mead, revered in anthropology, wrote her famous book, *Coming of Age in Samoa*, and helped ruin American morals. She described an idyllic, sexually FREE culture in Samoa. But another anthropologist, Derek Freeman who lived on the same island for years, refuted Mead's book and said she was the victim of a **Samoan joke**. The Samoans were an exceedingly puritanical people with rigid rules against sexual promiscuity. Later, Dr Martin Orans apologized for the way he and his colleagues had been drawn in by the hoax. *So Margaret Mead was a naïve victim of a Samoan joke, but her book helped ignite the sexual revolution.* -Ted Byfield *Why History Matters*

How naïve of our culture to change traditional morals based on the imaginary account of Margaret Mead. Americans were so eager to throw off the supposed sexual restraints, we accepted her false accounts and the preposterous *Kinsey Reports* - all based on misrepresentations.

The Spiritual State of the Nation ¹¹²⁰

What is the spiritual state of our nation? Are we ripe for God's judgment?

Who owns your kids - you or the government? Who can do a better job of raising your children - you or the **government**? 90% of American parents naively trust the government schools to educate, and in essence, raise their children. If Obama's Education Secretary, Arnie Duncan, has his way, your kids will be in government schools 8 hours a day, 12 months a year. *Summer vacations will be an outdated by product of America's farming culture.* Now they want your children from age 3 on in the public schools.

Education is discipleship. A student becomes like his teacher. If your child's teachers are mostly atheists, your children will most likely become atheists. Is it any wonder the younger generation is almost **completely pagan** when public schools are *totally heathen*? *Atheist school systems can't produce Christian students.* Jer. 10:2 says, "Learn not the way of the heathen." What part of 'learn not the way of the heathen' do the 90% of Christians, who put their kids in heathen schools, not understand?

What do Christians think of scriptures like these, when they send their children to pagan schools? "Do not be bound together with *unbelievers*. What fellowship does *light have with darkness*? Come out from among them and be separate."

Dr Brian Ray's research (www.nheri.org) shows that 94% of home schooled children stay Christians, while 80-90% of public schooled children leave the Christian faith. The fact that this doesn't cause apoplexy in today's churches, speaks volumes about the church.

An ancient Chinese curse says, "May you live in *interesting* times." We live in *exciting* times, prophetic signs are everywhere. Pastor **David Barnhart**, author of *Living in the Times of the Signs*, says, "Satan may be dancing in the streets, but God is still on the throne of heaven. If America doesn't soon repent, we will see plagues, storms, wars, and economic collapse - all at an **apocalyptic magnitude.**"

Pastor Barnhart says, "Same sex marriage is one of the final signs that severe judgment is **coming very soon.**" The spiritual foundations are crumbling as schools and cities celebrate Islam and homosexuality and censor Christianity and traditional morality. As Biblical morality is eradicated, so is respect for life. What's next is euthanasia, as national health care can *no longer afford* to keep older Americans alive. It's ironic, that this younger generation, of which one-third were killed through abortion *by our generation*, will be making decisions, through death panels, that our generation will be euthanized through government health care. *We reap what we sow.*

The greatest battle is being waged against Christianity now in America and most Christians seem unaware or disinterested. **Ronald Reagan** said, "*America needs God* more than God needs America. If we ever forget we are one nation *under God*, we will be one nation *gone under*." "

God's patience has limits. America is guilty of the most grievous sins. Scriptures clearly says, "Whoever doesn't stand with Israel stands **against GOD**." Gen. 12:3, "I will bless those who bless you and whoever curses you- *I will curse*." Our government has turned against Israel. We are arming and training the enemies of Israel. God can't save a nation that doesn't want to be saved.

What is America to **God** Almighty? Isa 40:15, "Surely the nations are like a *drop in a bucket*; they are as *dust* on the scales." Read Deuteronomy 28, it really happened to God's people Israel:

"The Lord will send on you curses, confusion and rebuke until you are destroyed and come to sudden ruin. The Lord will strike you with wasting disease, with drought, with mildew, which will plague you until you perish. The Lord will inflict you with boils, tumors, festering sores and the itch... with blindness... you will eat the fruit of the womb, the flesh of the sons and daughters the Lord has given you. You will live in constant dread both night and day." WHY? Deu 28:47, "Because you did not serve the Lord joyfully and gladly in the time of **prosperity**, you will serve the enemies the Lord sends against you, until he has **destroyed you**."

This is terrifying to think about. God *destroyed his own people, Israel!* What is America to HIM?

The Truth About Evolution 1121

"First there was nothing. Then it exploded."

According to news reports, the "missing link" has been found. "Ida" is a fossil of an extinct lemur-like animal linking humans to mammals. Evolutionists say whales evolved from land and horses developed long necks by stretching their necks to eat. But is that science or *science fiction*? Have scientists created life from non-living material as evolutionists claim? In the 1800's, it was believed that life could spontaneously come from non-life. But what *Darwin* believed, *Pasteur disproved*. **Dr Carl Werner** is the author of two magnificent books, *Evolution- the Grand Experiment* and *Living Fossils*.

Ancient cultures worshiped gods of wood and stone. We, however, in our contemporary paganism, have invented the most insulting "god" of all. Instead of ascribing the awesome magnificence of the Creation to false gods, we have chosen to ascribe it all to randomness, or chance. What an insult to the Designer. *Chance as the Master Architect?*

Koinea - Personal Update June 2000

Christianity & Capitalism part 1 & part 2 1114-1115

How did America get the furthest left American President in history and a socialist Congress that's quadrupled the national debt and created record unemployment? Where's that economic "stimulus"? Idealistic young people are easily swayed away from capitalism and toward socialism. **Jay Richards**, with the *Heritage Foundation*, and author of *Money, Greed, & God - Why Capitalism is the Solution and Not the Problem*, says as a young idealist, he thought *capitalism* was *anti-Christian*. But a funny thing happened on the way to the **socialist** utopia - it's called reality. **Socialism not only failed to produce freedom, it failed to produce food**.

From a Christian perspective, what's the difference between capitalism and socialism? Social injustices abound. Some people are born into wealth while others are stuck in poverty. America has raised a generation that increasingly *believes in government, trusts in humanism, and wants equality through socialism*. *What does this mean for the future of our nation?*

We got a call from a listener who said Christianity has been **socialist** from its inception. Is that true? Was Jesus and were the early Christians capitalists, socialists, communists or none of these? Which system of government most helps the poor? **Jay Richards** dispels 8 economic myths taught as facts in public

school that lead students to become **socialists**. *Moral issues* affect economic issues. Single motherhood is the greatest predictor of poverty in America. At the core of capitalism is not greed, but imagination, innovation and creation. Capitalism creates entrepreneurs and a spirit of invention. Without freedom, there is no creativity. *You can not help the poor by destroying the rich.* (Please read that again.)

Light in the Closet ¹¹¹⁶

With at least 36 **homosexual activists** in Obama's administration, **where is** he taking this nation? Kevin Jennings, founder of G.L.S.E.N., the greatest promoter of the homosexual agenda in schools, has been appointed by the US Secretary of Ed. to head *safe schools for children*. **This is outrageous!** This will put students in great physical, psychological, and spiritual danger. **Linda Harvey**, of *Mission America* says, "Promoting high risk behavior doesn't just endanger students – **but the nation.**" How has the educational establishment come to embrace a lifestyle so pernicious it cuts twenty years off the average homosexual lifespan? **Arthur Goldberg**, counselor and founder of *Jonah*, and author of *Light in the Closet*, says the homosexual movement has had almost a hypnotic power over public education. We are witnessing the wholesale corruption and destruction of American youth. **"There is a moral line that, once crossed, threatens to unravel the fragile bonds of civilization."** Jeff Kuhner

Beyond Me ¹¹¹⁷

Living a YOU-First life in a ME-first world.

Are you a "ME-FIRST" person or a "YOU-FIRST" person? Living for basically just *yourself* can be stressful and depressing. A "YOU-FIRST" parent raises children who consider others before themselves. **Kathi Macias**, author of *Beyond Me- Living a You First Life in a Me- First World*, says Christians need a *servant's attitude*.

Never in history have there been so many Christians, with so much money and property, than today in America. **But never in history have so many Christians been so powerless, so irrelevant to impact their culture.** Christians in prior generations freed slaves, founded hospitals, and established schools and, unlike this generation, taught their own church children a Biblical worldview. But the advances made by previous generations have been **lost by our generation**. We have **lost**, not gained, religious freedom.

How did the disciples, the early Christians and Christians throughout the ages transform their worlds? **They were first transformed themselves.** Before you can transform anything **you need to be** transformed by *renewing your mind*. Christian parents today simply drop their kids off at the godless public school, then they wonder why they didn't turn out Christian. Duh? A home schooling parent is a servant. But teaching isn't enough. We need to put into practice what we learn. A pilot can study the manual but can't fly until he is **trained**. Parenting is *training children*. Parenting is teaching children but putting that into practice is *discipleship*.

Fulfilling the Call ¹¹¹⁰

How has this nation gone from being "one nation under God," to "under God" being unconstitutional? Atheism controls our schools and courts and sees nothing wrong with censoring out anything Godly. **Pastor Austin Miles** took on the atheists in the pledge case (Michael Newdow) and won!! But his victory was censored by the media so that few people know it's now legal to say "under God" in the pledge. Austin Miles tells how his church took over a closed public school to give kids a Christian education. At a time when *public* schools are closing, this is what other *churches* should be doing.

Developing a Love For Learning ¹¹¹¹

How can you develop a love for learning and make your child a lover of books? What is your goal as a parent? Begin with the end in mind. Don't simply ask what kind of education you want. Ask what kind of person you want them to become. What is the probability of adults age 19 and over becoming a

Christian? ____ (It's 6%!) **Carole Joy Seid**, an educational consultant, and seminar leader said, "In all my 20 years of working with families, I've found the single most effective tool in shaping a child's character is great literature." The right book at the right time can change a child's destiny.

Restoring Godly Government 1112

Has the USA become the **USSA** – United *Socialist* States of America?

Socialism says it all belongs to the state and we are permitted by their generosity to keep a percent of our money. Author of 11 books on education, 83 year old **Dr Sam Blumenfeld**, gives insights into what made America great and how public schools are changing America into a *socialistic* state. What was the formula for America's greatness so that it was the envy of the world? Sure it was capitalism but also *belief in God*. As our public education system undermines basic beliefs, it also undermines our success and prosperity.

Mighty Man of God 1113

Teachers have been fired simply for having a Bible on their desks. That's why **Dr Robert Simond's** story is fascinating. He put a scripture on the board every day and was taken to court three times. But in court, Dr Simonds delivered a powerful gospel message and God miraculously forced the heads of the prosecutors onto their table so they couldn't proceed. Dr Simonds stood up for Christ and Christ gave him victory. Dr Simonds, President of *Citizens for Excellence in Education*, says schools have been given over to the homosexual agenda and parents need to consider options.

A Good Exit Strategy 1106

No one is trying to silence evolutionists, homosexuals and humanists, who have their beliefs openly taught in public schools. Schools in Cal. are required to teach "an appreciation for homosexuality," yet Christian beliefs are singled out for elimination. Why do 90% of Christians still support these schools? The good news is there are lots of options. Pastor **Ron Gleason** is the Cal. Director of *Exodus Mandate* and says parents are given by God the responsibility to educate their children. Churches can help by providing affordable Christian education, even using churches as schools.

Silencing Christian Speech 1107

How can Christians be witnesses when their speech is silenced? Valedictorians have a right to speak freely about whatever contributed to their success, but Christian valedictorians, like Brittany McComb and **Jennifer Swadell**, are silenced because they mention Jesus. **John Whitehead**, President of *The Rutherford Institute*, said, "America is no longer a safe haven for Christians." Now the US Government is prohibiting Christians from having freedom of speech. Churches have trillions of dollars in property that sit empty while the children are disciplined into humanism in public schools.

Changing Our Destiny 1108

Fox news reported the only *religion* increasing in numbers is atheism. Many top Christian leaders say we have lost the culture war. What role are public schools playing in the *degeneracy* of our culture? An anonymous Christian public high school teacher says parents think their child is being "salt and light," but he sees them *lose their faith* at his school. The facts are in: 94% of home schooled children continue as Christians, compared to 80% of public schooled students who lose their faith. Guests: **Ray Moore**, the Director of *Exodus Mandate*, and **TC Pinckney**, former Vice-President of the SBC.

July 4th 1776 1109

Are we giving up our **sovereignty** and submitting to the World Court and the U.N.?

Tom Deweese, reports on a U.N. program that prepares students to accept a one world government.

Tom Dooley, author of *One Nation Under God-America's Lost Dream*, talks about the price paid for our

independence. GOD miraculously protected George Washington in battle after battle. Was our war with Britain really a "Revolutionary War?" **Peter Marshall**, author of *The Light And The Glory.*, says Americans were defending themselves from the British and restoring a Godly government.

Let me get this straight...

We're going to pass a health care plan
 written by a committee whose head says he doesn't understand it,
 passed by a Congress that hasn't read it but exempts themselves from it,
 signed by a president that also hasn't read it, and who smokes,
 with funding administered by a treasury chief who didn't pay his taxes,
 overseen by a surgeon general who is obese, and
 financed by a country that's nearly broke.
 What possibly could go wrong?

This is a time for COURAGE!

Talk about media bias. We read a newspaper story that said David Livingstone was an explorer in Africa. We were amazed that there was no mention Dr Livingstone was the most famous Christian missionary in the last **500** years. According to the biased media he was simply an explorer, an environmentalist.

Livingstone wasn't just an explorer, although he explored Africa more than any man. Livingstone wasn't just a medical missionary interested in environmental changes, but a man on a tremendous crusade for Jesus Christ.

David Livingstone eagerly accepted the "**impossible**" challenge of advancing the Kingdom of God in the unknown continent, Africa. After 16 years of traveling the interior of Africa, Livingstone was asked to speak at the University of **Glasgow**. It was the custom of **undergraduates** to **heckle** speakers with **pea**-shooters, toy **trumpets**, **rattles**, and **noise** makers.

Livingston walked out onto the platform. Here stood the man who had walked **11,000** miles all over Africa. His left **arm** hung limply at his side, having been almost ripped from his body by a huge lion. His **face** was a dark leathery brown from 16 years in the African sun. His face was furrowed with innumerable **lines** from African **fever**, which had racked and emaciated his body. He had been attacked by savages and by Turks who hunted Africans to become slaves. He was half **deaf** from rheumatic fever and half **blind** from a branch that had slapped him in the eyes in the jungle.

The students stared, and they knew that here was a man that was literally being burned out for God. Not a **rattle** moved, not a **foot** shuffled. A **hush** crept over that vast auditorium and they listened in total silence as David Livingstone told about his journeys and about the tremendous needs of this vast African population.

"Shall I tell you," he said, "what **sustained** me in the midst of all of these toils, hardships, and incredible loneliness? It was a **promise**, the promise of the Lord "I am with you always, even unto the end of the world." "It was this promise that Christ would be with me, personally, right next to me every **hour** of each day that gave me the **COURAGE** to continue, day after day." Livingstone said.

How **would you live** if you knew Christ was standing beside you each day? What would you do? For Livingstone, Christ was with him, and he lived as if He was. In his **diary**, we find Livingstone's tremendous prayer, "Lord send me any where, only **go with me**. Lay any burden on me, only **sustain me**. Sever any ties but the **tie that binds** me to Your service and to Your heart." And Jesus said, "David I am with you always."

Livingstone's dedicated, wife **Mary** finally came to meet him in Africa. For months she sailed on the ocean and then cruised up the steamy, mosquito swarming rivers. Soon after she greeted her husband, she contracted African fever. Night after night, day after day, **David sat up with her** and wiped her fevered brow. Slowly she worsened and finally took her last breath.

Mary was dead. David Livingstone buried her under a huge tree. Then **he fell** on that mound of dirt and **wept**. The Lord reminded Livingstone of his prayer, "Sever any **ties** but the tie that binds me to You."

His body was **broken**; his loved ones were gone; he seemed alone, **discouraged**. Was he overcome? How did he deal with sorrow and grief? Listen to the words he wrote in his **diary**; "My Jesus my **King**, my **life**, my **all**, I again consecrate my life to You. I shall place no value on anything I possess or on anything I may do, except in relation to the Kingdom of Christ."

When he arrived back home, he found that the **natives** had **stolen** his **food**, and worst of all, they stole his **medicine** chest with the **quinine** and the other medicines to alleviate the pain of those terrible African **fevers**. The loss of these essential things was a **death sentence**. He cried out, "O God, you promised to be with me."

Then he heard a **sound**. He looked up from his prayer. For **five years** he had not seen the **face** of a **white** man, and now, in the midst of the interior of Africa, he looked up and saw a **white face** walking toward him. Behind this white man was as **whole caravan**, and above them, flying in the wind, the America **flag**.

It was **Henry Stanley**, who uttered those unforgettable words; "Dr Livingstone, I presume?" For four months **Stanley lived** in the same hut with Livingstone and **nursed** Livingstone back to health. Stanley had been an **atheist**, but after those four months, living with Livingstone, Stanley **became a Christian**.

Livingstone **refused** to **return** to civilization with Stanley. Instead Livingstone plunged **deeper** into Africa. His **end** was approaching. He came to the place where his **strength** was completely spent; his feet were lacerated and ulcerated with **boils**; he had nothing **to eat** but **hard maize**--dried corn--for months, and gradually all of his **teeth loosened and fell out**. He was **deserted** by everyone except three of his followers. Livingstone could not walk. He couldn't stand; he couldn't go another step. But he commanded his friends to put him on a **stretcher** and carry him deeper and deeper into Africa.

Then came the day, when he couldn't even be moved. It was pouring **rain**. A **small** temporary **hut** was quickly made. He was lying on his cot, in the middle of the night, when the servant boy, who lying across the doorway to keep out the wild beasts, heard Livingstone **stir**. The servant boy got up and saw Livingstone **agonizingly** roll out of his **cot** onto his **knees** with his **hands** folded in prayer.

After a while, the boy went back to sleep. But in the morning when he looked in on Livingstone he saw him **still in prayer**. Several people **came asking** for Livingstone, but the boy told them Livingstone **was at prayer**--not to disturb him. Finally, the boy became concerned and said to Livingstone softly, "Bwana." No answer. "Bwana." still silence. He crept closer to him and touched his cold cheek.

Livingstone **died on his knees** in prayer. Livingstone had lived his life in the presence of Christ, and he left this life in the **presence of Christ**. **Jesus** said, "I am with you always." And Christ kept his promise.

What a joyful arrival in heaven he must have had. Livingstone's life **consisted** of **39 years** traveling **29,000 miles** across Africa, bringing "light to darkness." **Two million Africans** were brought the Gospel, and the light he brought continues to shine. Every mile Livingstone walked or was carried, he was strengthened by the promise "I am with you always."

Thank you Lord for the **tremendous** examples you've given of men and women totally dedicated to you. Bless those who read this newsletter with a renewed commitment and zeal for service for YOU, where they live.

Please put **your comments** in the "comments" section of our website: www.issuesineducation.org

"Give me one hundred preachers who fear nothing but sin and desire nothing but God, and I care not a straw whether they be clergy or laymen; such alone will shake the gates of Hell and set up the Kingdom of Heaven on earth." John Wesley
