Capitalism vs. Socialism #1102

Which is better - capitalism or socialism? Young Americans are equally divided. Recent polls of young Americans show they are equally divided over capitalism vs. socialism. "Socialism and globalism have become a reality in this country." Hank Giesecke- *Capitalism vs. Socialism*

In a recent Rasmussen survey of American adults under 30 years of age, 37% preferred capitalism and **33% prefer socialism** and 30% are undecided. They are equally divided between capitalism and socialism. And why shouldn't they be? *Socialism has been taught in schools for years*, so young Americans have little preference *for capitalism*. It's capitalism that has given us economic freedom, private ownership of property and prosperity. It's capitalism that has led to innovation and free enterprise. *But what will be the future of this country when young Americans are equally divided over a system of proven success and one of proven failure? How will future generations fight to preserve a system they don't appreciate?*

Also in the survey, Republicans favored capitalism by 11 to 1. Democrats are closely divided with 39% preferring *socialism*, calling capitalism 'greed', 'excess' and 'unequal'. So they want to redistribute the wealth – make everyone equal – **equally POOR**.

Our government is being transformed from capitalism to socialism, yet most young Americans don't know the difference between the two. Socialism and communism *no longer* have negative connotations. Some people say capitalism is the unequal *distribution of wealth*. **But socialism is the equal distribution of misery!** Socialism offers prosperity but in reality brings poverty and empty shelves. Capitalism has proven that it raises the standard of living for all.

Socialism is an illusion that claims to help the working man but *enslaves* him. Some socialists call Christians 'scary,' but remember the *Nazi's were Socialists*, their name was the *National Social German*

Workers Party, and they tortured and killed Christians and Jews. *Soviet Russia* was socialist (USSR-The Union of Soviet Socialist Republics) and they too killed Jews and Christians. *Red China* is socialist: remember Tiananmen Square? Socialism means *repression and brings death to non-conformists*.

The basic question is this: Is the state sovereign or is God sovereign? Who owns your property? If you own it, why can the state tax it and take it away if you don't pay the taxes? In socialism, the state owns **everything** and allows you to keep *some* of it. SO the state can force you to put your kids in their schools. They can tax everything you have. The government that gives you everything you want can take it all away.

- Speaking on the economic crisis *President Obama* said, "Government is the only thing that can help."
- *Vice President Biden* said, "It is our patriotic duty to pay taxes."
- *Colon Powell (RINO)* said "Americans are looking for more government in their lives, not less."
- *Thomas Jefferson* "My reading of history convinces me that most bad government results from too much government."
- *Ronald Reagan*, "Government is not a solution to our problem, government is the problem."

The Declaration of Independence says God endowed Americans with certain inalienable rights, including life, liberty, and the pursuit of happiness. But if God is expunged from public life, then who endows Americans with inalienable rights? **The state?** Then, what happens to our inalienable rights? They will be subject to the state's *whims*. Isn't it deliciously ironic that the ACLU, which is supposedly the foremost champion of our rights, is leading the campaign to diminish them? Robert B.

Removing the word "God" is an establishment of religion, namely atheism.

Norman Thompson, a U.S. Socialist Party presidential candidate in the 1940's said "The American people will never *knowingly* adopt socialism, but under the name of 'liberalism,' they will adopt every fragment of the socialist programs, until one day America will be a socialist nation without knowing how it happened." He went on to say, "I no longer need to run as a Presidential Candidate for the Socialist Party. The Democratic Party has adopted our platform."

What will it take to wake Americans up? Life, liberty and the pursuit of happiness has been replaced with the *stealing by the state* in the name of the *greater good*. When American taxpayers finally do awake, they are going to be really angry. And the anti-American left won't let up until then.

If you are not familiar with the Progressive Democrats of America (6 House members), the Congressional Progressive Caucus (74 members), the Congressional Black Caucus (43 House members), and the Democratic Socialists of America - SURPRISE! - they are in charge of YOUR nation.

- **Walter Williams** wrote an article that said we've become a nation of thieves - forcibly taking money from some people to give to others. That's theft! Yet government can't give to one person unless it forcibly takes from others. Socialism means much higher taxes!
- Russian Prime Minister **Vladimir Putin** warned in a speech at the opening ceremony of the World Economic Forum in Switzerland "Don't turn away from the *spirit of free enterprise* which is being eroded in the last few months." Here's the head of Russia warning us against turning away from free enterprise and adopting socialism. WHY? Simply because *it doesn't work*. He should know.
- **David Noebel** of Summit Ministries wrote, "Socialists are united in their desire to see **capitalism destroyed** and would rejoice if Christianity were destroyed along with it. Capitalism has raised

more people out of poverty than any other economic system. Nearly all inventions have come from individuals rather than groups or governments."

- Little wonder **Winston Churchill** called socialism, "A philosophy of failure, a creed of ignorance and a gospel of envy whose inherent virtue is the equal sharing of misery." (Great quote!)
- **Margaret Thatcher** said, "The problem with socialism is that you eventually run out of other people's money."
- **Ronald Reagan**, "*Freedom is never more than **one generation** away from extinction.*"
- **Adrian Rogers** said, "*Government cannot give to anybody anything that it does not first take from somebody else. When half the people get the idea they don't have to work because the other half is going to take care of them, the ones working realize it does no good to work because somebody else is going to get much of what they work for –so **they quit**. You cannot multiply wealth by dividing it.*"
- **Thomas Jefferson**, "The democracy will cease to exist when you take away from those who are willing to work and give to those who would not."
- **Gary Demar** wrote, "Any criticism of socialism must begin with the rejection of one of the greatest engines of the socialistic worldview – the *public school system*."
- **Ken Cribb**, President of the *Intercollegiate Studies Inst.* wrote, "If socialism has come to America because it was implanted in the minds of past generations, there is no reason capitalism can't be taught to new generations. What's been done can be *undone*." There's the hope.

Some say capitalism is the unequal distribution of wealth, but socialism is the equal distribution of misery.

But young Americans don't know that. They need to be educated to preserve our prosperity.

California Committee Passes 'Gay Day' for Public Schoolchildren

6 Democrats and 1 Republican pushed SB 572 through State Senate committee. This is one of the worst bills in our history. It will be the most damaging to innocent school children. It institutes an official Harvey Milk "Gay Day" in ALL public schools, making the homosexual lifestyle a role model for children. What will schools teach about Harvey Milk? Milk, speaking at a homosexual rally in 1978 said:

Religion is dangerous: More people have been slaughtered in the name of religion than for any other single reason. That, my friends, is true perversion. Gay and lesbian marriages are good and natural.

SaveCalifornia.com

Randy Thomasson, president of SaveCalifornia.com, said,

"It's absurd that government schools teach children not to smoke or use drugs, yet would teach children as young as kindergarten that homosexuality is good and healthy and maybe *even for them*. Homosexual and bisexual behavior causes up to 82 percent of all HIV transmissions in California. SB 572 encourages public schools to positively portray to children any and all facets of homosexuality, bisexuality, and trans-sexuality. With public schools becoming sexual indoctrination centers, homeschooling and church schools are no longer parental options, they're parental **imperatives**."

Freedom From Bondage 1103

We have a whole generation being saturated with pornography, a plague capturing millions of people. Internet porn is *epidemic*. The only way to stop this assault is with a strong defense. Once graphic images get into your brain, the pictures are hard to get out. **Clay Allen** is a pastor and president of *Avenue*. **Fred Stoeker** is the co-author of *Every Young Man's Battle - Strategies for Victory in the Real*

World of Sexual Temptation. Suggestions include: make a covenant with your eyes to bounce away from temptation and appropriate the power of God to set you free from this oppressive addiction.

The Cross parts 1+2 1104-1105

Experts say young people need heroes and positive role models to look up to. **Arthur Blessitt** is one of the most unique men to walk the entire face of the earth. He carried a 12' wooden cross through every country on earth- the longest walk in history – 38,102 miles. The movie, THE CROSS, tells his fascinating story. He walked through the front lines of 52 war zones and he was beaten and stoned by angry mobs of Muslims. In South America, he faced a firing squad, but God miraculously protected him. He has shaken hands with more people than any other person throughout history.

We pray for Godly leaders and God gives us little boys. How can we raise them to be Godly, courageous people? One way is through examples of Godly, courageous people. One example is **Arthur Blessitt**, who carried the cross into every inhabited place on earth for 40 years. This is *courage and dedication!*

Although he was called by God to carry this heavy wooden cross, just before he started, the side of his face and his arm and leg went numb. He couldn't move normally. In the hospital the doctors shot dye into his arteries and he had a bad reaction that caused his neck to swell up twice its size. The doctors told him he had two brain aneurysms that could burst at any moment. He was told not to carry anything or he could die. **He had a choice.** Do *what God called him to do*, and risk death, or continue to live but a totally *sedentary* life. What would you do?

He said to God, "You called me to carry the cross and I would rather die doing YOUR will than to go on living not doing what you called me to do." Most people would follow their doctors' orders and stay alive but *not Arthur Blessitt*. So out of bed he arose and he set forth carrying the cross even though he was still weak, numb and wobbly. God honored Arthur's 'walk of faith' – his obedience, and he walked through dangerous jungles, to China, Beirut through the front lines of a war zone, and down the Via Dolorosa in Jerusalem.

Through it all he learned that hardships and difficulties are not stumbling blocks but *stepping stones*. Because of brain aneurysms, he was warned not to carry anything, but he said he would rather die doing God's will than live outside of it. This is a message of God's profound love for people.

Last month, President Obama surprised people in Turkey when he told reporters that America "is not a Christian nation." That was news to citizens back home who faithfully pledge their allegiance to "one nation, under God." "Although... we have a large Christian population," the President said, "we [don't] consider ourselves a Christian nation, or a Jewish nation, or a Muslim nation. We consider ourselves a nation of citizens who are bound by ideals and a set of values." A bipartisan coalition recently introduced a new resolution affirming our nation's rich Christian tradition. H. Res. 397 documents the United States as a Judeo-Christian nation from its inception. The preambles of all 50 state constitutions are prefaced by gratitude to **God** or appeals to His guidance. For a non-Christian nation, we have certainly invoked the Almighty an awful lot! - 5/7/9 Tony Perkins, *Family Research Council Washington Watch*

"Ask the average American if this is a **Christian** nation, most would say it was. *Ask them 'Is America a Judeo-Christian, **Muslim** nation,' very few would say it was. The last time I checked, the Pilgrims who landed at Plymouth Rock were Christians, not Muslims. Our Founding Fathers were inspired by the Bible, not the Koran. Islam has contributed very little to the history of America."* Gary Bauer

But if you are a Christian you need to answer this question, "What would this nation look like without the CHRISTIAN influence? How has Christianity been good for America?"

“America is simultaneously **the most professedly Christian** of the developed nations and *the least Christian in its behavior.*” -Bill McKibben

Uncompromised Faith 1098

Is Christianity becoming irrelevant? Recent surveys, like the Religious Identity Survey, show a decline in Christians in America. 88% of young Americans are rejecting the Christian faith.

Public schools have the biggest influence on our culture, and they have defined Christianity out. What can we do to win back the culture? **Michael Craven**, author of *Uncompromised Christianity*, says Christianity is good for America and tells how we can best communicate that to persuade our culture. Throughout history, Christians transformed their cultures and the world, but what can *we do now*?

Why Christianity Is Becoming Increasingly Irrelevant by Dr Robert Dreyfus

“For decades, we have lost ground to the Humanists because they have been *more dedicated and courageous than Christians*. Most who call themselves Christian or conservative are not involved with the struggle to maintain our freedoms or our Christian culture. Every year, fewer Christians are working to make a difference. Researcher, George Barna, states that we are losing 96% of Christian school children - an average of 9,000 children per day 365 days/year. *It's a sign of insanity to keep on doing over and over what we've been doing and expect a different result.*”

“The reason we've been losing the culture is that most of the battles in which Christians engage are defensive such as maintaining the definition of the family. Even if we win, it only reinforces a premise that society has acknowledged for thousands of years. It doesn't *gain* any ground. We need to conduct *offensive battles* to regain lost territory. The primary **offensive** battle in which we can engage is the salvation of our children and the preparation for them to become spiritual champions. This issue impacts almost every other issue that matters. For instance, it is nearly impossible to convince an uneducated citizenry with a secular worldview that abortion is wrong.”

Islam Targets Universities 1099

Why would anyone want to kill us? What really goes on *in the mind of a Muslim terrorist*? Are there Muslim terrorists here in America? **Walid Shoebat** knows – *he was one*. Walid Shoebat came here as a college student but spent his time raising money and support from students for Jihad. Walid is now a Christian and author of *Why I Left Jihad* and *Why We Want to Kill You*. Islam has infiltrated universities and is winning over the minds of students. Walid faces angry crowds who are not interested in Christianity, only Islam, and he tries to warn them about the dangers of the radical Muslim mind.

MUSLIMS in America HAVE MORE FREEDOMS THAN CHRISTIANS!

Public schools **accommodate Muslim students** during Ramadan with special time off, rooms to pray, and speakers to talk about the Muslim fast. One school urged non-Muslim students and teachers to join in the fast. But Christians don't have the same rights:

Jackie P.

I have been so upset, all the other religions in the world can be discussed openly, but just the mere mention of Christianity, God or Jesus in hushed tones and you are subject to dismissal or other forms of discipline. ***What is it with the people in this country?!*** We beat our chests and proclaim our "**tolerance**" as long as it's anything but Christianity! And we have the nerve to call *Christians hypocrites!* What? No one has mirrors at home?

Gary Bauer

It must be very hard for our enemies to fully understand American liberals. Try to put yourself in their shoes for a moment: First, you are captured on the battlefield where you are trying to kill U.S. soldiers. Then you are

imprisoned at GITMO and immediately provided expert medical attention and better nutrition than ever before. Soon lawyers from some of Washington's most prestigious law firms offer to represent you free of charge. Finally, you are told that the president intends to release you inside the country you dream will be destroyed some day, and the Director of National Intelligence wants you to be paid a stipend by those dreadful infidel taxpayers so that you can adjust to your new life. And that same president was floating the idea of taking away some health benefits from the soldiers who captured you!

Homeland Security on guard for '**right-wing extremists**.' Returning U.S. **veterans** singled out as particular threats.

Last week Barack Obama's message to the world was: "the United States is not and never will be at war with Islam." This week, Barack Obama's Department of Homeland Security's message to conservatives was: the United States may soon be at war with *you*.

Joseph Farah, *World Net Daily*

It's not al-Qaida, Hamas or Hezbollah that has the Department of Homeland Security on edge. Once again, it's the **vast right-wing conspiracy**. Homeland Security sent a report to police stations and other law enforcement agencies around the country that says the big threat of domestic violence comes from "right-wing extremists." President Clinton's White House and FBI were ALSO looking for right-wing extremists for eight years. And, of course, the Clinton administration never saw 9/11 coming because, well, they were too busy looking under beds for right-wing extremists.

And if you're one of those who think the federal government is grabbing too much power, you, too, **are on the enemies list**. This is how quickly the Obama administration has begun misusing the most powerful and well-funded agencies of the federal government against the people, squelching dissent and moving us closer to a fascist police state. -Joseph Farah, *World Net Daily*

What's next? **No guns allowed** for right-wing 'extremists'? A new gun law in Congress, H.R. 2159, could deny firearms to pro-lifers, gun-rights advocates, tax protesters, and people **who voted against Obama**, because according to the DHS, they're all *potential* terrorists. What happened to the Second Amendment? Where's the due process? A bumper sticker correctly says, "**Legalize the Constitution!**"

The *Thomas More Law Center* filed a Freedom of Information Act demanding to know why the DHS calls Americans who oppose abortion, support 2nd Amendment gun rights and dislike lax immigration law enforcement, "extremists."

Richard Thompson, president of *Thomas More Law Center* said:

"It is a declaration of war **against the American people** and our constitution. It is a prelude to extreme gun control legislation and hate speech laws targeting Christian churches and others who oppose abortion and same sex marriage. The federal government should be focusing its attention on the 35 radical Muslim compounds in the U.S. training its followers on how to kidnap and kill Americans."

A Homeland Security directive is designed "to help police spot the tell-tale signs indicating potentially dangerous right wing extremism." They include: Being unimpressed by America's first 'African-American' president; Objecting to tax hikes; Disliking big government; and "Opposition to abortion, gay marriage and gun control. Liberal left-wing extremists love the idea that the greatest danger to the world comes from the extreme right." This is something to be **very concerned** about.

Most God-fearing, hard working, tax-paying honest, Christian Americans, along with returning servicemen and women, would be considered right-wing **extremists** and may be considered **terrorists** by the Dept of Homeland Security.

Robert Warren

According to the Dept of Homeland Security I may be someone the government should be worried about. I believe in God, I'm a military veteran, I am pro-life, I own a number of firearms and am a member of the NRA, I am a retired police officer, I am conservative and believe taxes are too high. I guess that the next time I go to the post office **I should look for a wanted poster with my picture on it.**

John Tyler (Former Air Force pilot and Christian patriot!)

According to the Homeland Security I'm a right-wing extremist because I am a veteran who clings to my guns and Bible. This is a despicable and asinine insult to this nation's veterans. If you oppose abortion, same-sex marriage, are unhappy with Obama turning this country into a socialist state, or if you're religious, these are sure signs of extremism, according to DHS. Oh, yes: I also went to a tea party protest in Salem on April 15. **My profile is complete.**

Pam Geller, from The Free Republic

Professionally, I have written 15 books in six languages, and have studied history all my life. There is something monumentally large afoot, something of historic proportions is happening. I can sense it. Yes, a perfect storm may be brewing. We have intentionally dumbed down our schools, ignored our history, and no longer teach our founding documents. Students by and large cannot write, think critically, read, or articulate.

We've elected a man no one knows anything about, who has never run so much as a Dairy Queen, let alone a town as big as Wasilla, Alaska. Surely you have heard him speak about his idea to create a mandatory civilian defense force stronger than our military for use inside our borders? No? Oh, of course. The media would never play that for you. I have never been so afraid for my country and for my children as I am now. Obama is dividing us.

I thought I would never be able to experience what the ordinary, moral **German** felt in the mid-1930s, when *the savior* was a former smooth-talking rabble-rouser whom the average German knew nothing about, but who edged his way onto the political stage through great *oratory and promises*- he smiled and waved a lot. Slowly but surely he seized the controls of government power, got kids into a Youth Movement where they were taught what to think. *How did he do it?* By indoctrinating the children, health care for all, better wages, and re-instilling pride in their country. He did it with a compliant media. And the people surely got what they voted for -- CHANGE.

Don't forget that Germany was the most educated, cultured country in Europe. It was full of music, art, museums, hospitals, laboratories, and universities. And in less than six years - a shorter time span than just two terms of the U. S. presidency - it was rounding up its own citizens, killing others, abrogating its laws, turning children against parents, and neighbors against neighbors. All with the best of intentions, of course. The road to Hell is paved with good intentions.

No Intelligence Allowed 1100

Why is the media ignoring the biggest battle over academic freedom in decades? The battle is not over creationism but whether students should hear the weaknesses of evolution. Intelligent Design arises out of science, but it's not allowed in schools because it's too religious. Biochemist **Michael Behe**, the world's leading ID theorist and author of *The Edge of Evolution*, says design did not arise by accident. **Casey Luskin**, author of *Traipsing Into Evolution*, says Darwinists are against academic freedom. Creationism has been ruled not scientifically plausible when, in fact, it's the true reality.

Man Does Not Live By Bread Alone 1101

Which is more dangerous to your health - being a smoker, a drinker or being overweight? How safe is feeding kids hot dogs? *Children who eat just three hot dogs a week have 9 times the risk of getting leukemia.* Americans are dieting more but are more overweight than ever which increases their risk of getting cancer, heart disease and diabetes. **Dr Ted Broer**, a nutrition expert, biochemist and author of *Maximum Fat Loss and Maximum Energy*, gives a comprehensive overview of a good diet and the ten foods to avoid and why to avoid them. *Lifelong habits are established in youth.*

History's Greatest Communicator 1094

What can we learn from Jesus Christ's example about discipleship, leadership and effective communication? Jesus took complex theological concepts and simplified them so everyone could understand. His words and actions speak to the hearts and minds of people throughout every culture

and every generation. **John Coleman**, co author of *How to Argue Like Jesus- Learning Persuasion from History's Greatest Communicator*, was named the nation's top overall collegiate speech competitor and is pursuing an MBA at Harvard. Being a great communicator is more than persuasive speech.

Soaring Like An Eagle 1095 (This is the most popular/inspirational program we've produced.)

The majestic eagle is a symbol of *strength and freedom*. Just as opposing winds cause an eagle to soar higher so *adversity strengthens* Godly people. So when adversity comes your way, don't let it get you down. Let it *push you up* as you draw closer to God. Inspirational high school assembly speaker, **Gary Horton**, says the powerful, strong, father eagle is there waiting to catch the little eaglet as he tries to fly *just as God is there to catch us when we fall*. **Mary Whelchel**, author of *Soaring on High -Spiritual Insights from The Life of An Eagle*, makes wonderful parallels between the eagle and Christians.

Getting Into Heaven

I was testing the children in my Sunday school class to see if they understood the concept of getting into heaven. I asked them, "If I sold my house and my car, had a big garage sale and gave all my money to the church, would that get me into Heaven?" "NO!" the children answered. "If I cleaned the church every day, mowed the yard, and kept everything neat and tidy, would that get me into Heaven?" Again, the answer was, "NO!"

I was just bursting with pride for them. "Well," I continued, "then how can I get into Heaven?" A five-year-old boy shouted out, "YOU GOTTA BE DEAD!"

The Wonder of Heaven parts 1+2 1096-1097

What's the greatest event in all human history? It has to be the Resurrection of Jesus Christ because the greatest enemy- death itself was defeated. Bible teacher, **Ron Rhodes**, author of 45 books including *The Wonder of Heaven- A Biblical Tour of Our Eternal Home*, answers questions like, "Is heaven a real place? Will we recognize our loved ones? What will people do in heaven? Will we eat in heaven? Will our pets be there?" Pastor **William Frey**, author of *The Dance of Hope*, says the Resurrection gives meaning to life. Professional actor, **Bruce Marchiano**, gives a dramatic description of the Resurrection.

The Resurrection is proof that death is not the end but the beginning of our lives. **Pastor Dean Braxton** died, went to heaven, but was sent back to earth by Jesus. What he describes in heaven will *fascinate, encourage, and excite* you about your heavenly home. Everything in heaven is alive and communicates with you, even the colors are alive. The music is incredible- out of this world. But the greatest treasure of heaven is meeting the One who made it all possible - Jesus. Dean met relatives. His message is the urgency for others to receive Christ. *Meditating on heaven relieves anxiety on earth.*

YOU KNOW YOU ARE LIVING IN 2009 when...

- You accidentally enter your pin on the microwave. You have a list of 15 phone numbers to reach your family of 3. You e-mail the person who works at the desk next to you. Your reason for not staying in touch with friends and family is that they don't have e-mail addresses. You pull up in your own driveway and use your cell phone to see if anyone is home to help you carry
- in the groceries. Leaving the house without your cell phone, which you didn't have the first 20 or 30 (or 60) years of
- your life, is now a cause for panic and you turn around to go and get it. You're reading this and nodding and laughing. Even worse, you know exactly to whom you are going to forward this message.

God's best blessings to you,
